ICPSR PROCESSING NOTES

1. The Murray Research Center conducted the initial data and documentation processing for this collection, including the initial confidentiality review. ICPSR performed the following additional checks:
   - verified that respondent confidentiality was protected
   - checked for undocumented codes for categorical variables and out-of-range values for continuous variables
   - noted inconsistencies in missing value designations.

2. ICPSR altered the data files from the Murray Research Center in the following ways:
   - reordered the variables so that the administrative variables (e.g., ID, wave number, cohort number, and dates) were at the beginning of each file and that the order of the other variables followed the data collection instrument
   - reformatted date and time variables to make them compatible across statistical packages
   - standardized abbreviations in variable and value labels and fixed misspellings in order to facilitate metadata searching
   - recoded character variables to numeric variables and standardized response codes across cohorts.

3. The Murray Research Center converted the original data collection instruments to Portable Document Format (PDF). ICPSR enhanced this PDF document by making all of the text searchable. The document is distributed as the questionnaire file for this study. Additionally, ICPSR created the following PDF documentation:
   - Data Completeness Reports summarizing the amount of missing data in each file
   - codebooks listing the metadata for each variable, as well as frequencies, summary statistics, and, in some cases, original question text
   - processing notes and appendices documenting additional information, as necessary.

4. As noted above, ICPSR recoded all character variables to numeric. ICPSR simply assigned the character values to a number and used the text of the character variable as a value label. ICPSR did not alter the text from the character variable; therefore, the value labels may contain spelling errors or unusual characters (e.g., *). ICPSR standardized the numbering of the responses across all files in the study to facilitate comparison across files. The following character variables were recoded to numeric variables for this data collection:
   IY7A language problems with YA

Users interested in obtaining data for this variable should follow the instructions outlined in note number 6

5. Users should note that data for the following variables, for confidentiality reasons, are not available:
   IY16A_I ID, other SP 1
   IY16B_I ID, other SP 2
   IY16C_I ID, other SP 3
   IY16D_I ID, other SP 4

6. Users should note that the values for variable SUBID2 have been reassigned from the original variable SUBID in order to protect respondent privacy. Users interested in obtaining these data must complete a Data Transfer Agreement Form and specify the reasons for the request. A copy of the Data Transfer Agreement Form can be requested by calling 800-999-0960. The Data Transfer Agreement Form is also available as a Portable Document Format (PDF) file from the NACJD Web site at http://www.icpsr.umich.edu/NACJD/ Private/private.pdf. Completed forms should be returned to: Director, National Archive of Criminal Justice Data, Inter-university Consortium for Political and Social Research, Institute for Social Research, P.O. Box 1248, University of Michigan, Ann Arbor, MI 48106-1248, or by fax: 734-647-8200.

7. Users should note that the codebook frequencies provided by ICPSR are from the public use files and that this version of the codebook documents both the public and restricted use data.

8. The following abbreviations are used in the codebook and setup files:
   CHA = Chicago Housing Authority
   IIYA = Interviewer Impressions (Young Adult)
   PC = Primary Caregiver
   SUB = Subject
   YA = Young Adult

   The following continuous variables have values that appear to be out of a valid range:
   IY16A_A age, other SP 1 - value of 1 (9 cases)
   IY16A_I ID, other SP 1 - value of 99999999 (3 cases)
   IY16D_I ID, other SP 4 - value of 99999999 (1 case)

Data Completeness Report

Notes: (1) Variables are individually listed only if they have greater than 5% missing data. These variables are listed under the appropriate percentage category in the order in which they appear in the data file. (2) The Data Completeness Report only captures information about system missing or other values that are declared missing. Codes that have a label implying that they are missing but that are not declared missing values are not reflected in this report. Data users should consult the codebook for more specific information about missing values. (3) Some variables that have 100% missing data may have been blanked by ICPSR to protect respondent confidentiality. Data users should consult the codebook for more specific information about blanked variables. (4) Data do not contain skip patterns or skip patterns are not reflected in the data as coded.

Table 1: Distribution of Variables by Percentage of Missing Values

Variable Name and Label (Total Cases = 489)			Percent of Cases with Missing Values
5.1%	(3 of 59 variables)	have 0% Missing Values	
0.0%	(0 of 59 variables)	have 0% - 1% Missing Values	
0.0%	(0 of 59 variables)	have 1% - 3% Missing Values	
1.7%	(1 of 59 variables)	have 3% - 5% Missing Values	
10.2%	(6 of 59 variables)	have 5% - 10% Missing Values	
	IY28	day of week	7.2%
	IY7	communication w/YA impaired by language?	7.6%
	IY8	problems due to presence of others?	8.0%
	IY9	other problems during YA interview?	8.0%
	IY10	amount of questions YA understood	7.0%
	IY11	how cooperative YA?	7.6%
49.2%	(29 of 59 variables)	have 10% - 20% Missing Values	
	HRSIIYAE	hours - time of day entered home	11.7%
	MINIIYAE	mins - time of day entered home	11.7%
	HRSIIYAL	hours - time of day left home	13.5%
	MINIIYAL	mins - time of day left home	13.5%
	IY1A	YA description 1	14.1%
	IY2	YA likelihood of participating next year	13.9%
	IY4	likelihood of locating YA next year	17.2%
	IY12	gender of SP	14.7%
	IY14	multi-subject household?	14.1%
	IY19	home free of potential hazards?	16.4%
	IY20	home has at least 100 square feet space/person?	16.0%
	IY21	home is clean and minimally cluttered?	16.4%
	IY22	rooms not overcrowded w/furniture?	16.4%
	IY23	interior not dark or monotonous?	16.2%

Table 1: Distribution of Variables by Percentage of Missing Values

Variable Name and Label (Total Cases = 489)			Percent of Cases with Missing Values
	IY24	home has at least 2 pictures/art work on walls?	16.2%
	IY25	home not too noisy from noise in house?	16.2%
	IY26	home not too noisy from noise outside?	15.7%
	IY27	no signs of alcohol/illegal drug use?	16.2%
	IY30	street layout	11.0%
	IY31	land use on face-block	11.2%
	IY32	condition of buildings in face-block	12.3%
	IY33	any buildings have gates/iron bars	12.5%
	IY34	volume of traffic on face-block	12.5%
	IY35	condition of street in face-block	12.9%
	IY36	garbage/broken glass in street/sidewalk	12.9%
	IY37	drug/alcohol/cig litter in strt/sidewalk	13.7%
	IY38	children playing on sidewalk/in street	13.1%
	IY39	adults/teenagers behaving in hostile way	13.1%
	IY40	how did you feel parking/walking/waiting	13.3%
6.8%	(4 of 59 variables)	have 20% - 40% Missing Values	
	IY1B	YA description 2	27.2%
	IY17	description of dwelling	24.5%
	IY18	private or public dwelling?	25.2%
	IY41	interview completed?	26.2%
16.9%	(10 of 59 variables)	have 40% - 99% Missing Values	
	IY1C	YA description 3	57.7%
	IY1D	YA description 4	89.4%
	IY1E	YA description 5	98.6%
	IY7A	language problems with YA	99.0%
	IY15	YA also a PC?	52.1%
	IY16A_A	age, other SP 1	94.5%
	IY16A_I	ID, other SP 1	95.1%
	IY16B_A	age, other SP 2	98.8%
	IY42	reason interview discontinued	99.0%
	IY44	proxy interview?	46.0%
10.2%	(6 of 59 variables)	have 100% missing values	
	IY16B_I	ID, other SP 2	99.2%

Table 1: Distribution of Variables by Percentage of Missing Values

Variable Name and Label (Total Cases = 489)		Percent of Cases with Missing Values
IY16C_A	age, other SP 3	100%
IY16C_I	ID, other SP 3	100%
IY16D_A	age, other SP 4	100%
IY16D_I	ID, other SP 4	99.8%
IY46	proxy's relationship to YA	99.2%
