ICPSR PROCESSING NOTES

1. The Murray Research Center conducted the initial data and documentation processing for this collection, including the initial confidentiality review. ICPSR performed the following additional checks:
   - verified that respondent confidentiality was protected
   - checked for undocumented codes for categorical variables and out-of-range values for continuous variables
   - noted inconsistencies in missing value designations.

2. ICPSR altered the data files from the Murray Research Center in the following ways:
   - reordered the variables so that the administrative variables (e.g., ID, wave number, cohort number, and dates) were at the beginning of each file and that the order of the other variables followed the data collection instrument
   - reformatted date and time variables to make them compatible across statistical packages
   - standardized abbreviations in variable and value labels and fixed misspellings in order to facilitate metadata searching
   - recoded character variables to numeric variables and standardized response codes across cohorts.

3. The Murray Research Center converted the original data collection instruments to Portable Document Format (PDF). ICPSR enhanced this PDF document by making all of the text searchable. The document is distributed as the questionnaire file for this study. Additionally, ICPSR created the following PDF documentation:
   - Data Completeness Reports summarizing the amount of missing data in each file
   - codebooks listing the metadata for each variable, as well as frequencies, summary statistics, and, in some cases, original question text
   - processing notes and appendices documenting additional information, as necessary.

4. Users should note that the values for variable SUBID2 have been reassigned from the original variable SUBID in order to protect respondent privacy. Users interested in obtaining these data must complete a Data Transfer Agreement Form and specify the reasons for the request. A copy of the Data Transfer Agreement Form can be requested by calling 800-999-0960. The Data Transfer Agreement Form is also available as a Portable Document Format (PDF) file from the NACJD Web site at http://www.icpsr.umich.edu/NACJD/ Private/private.pdf. Completed forms should be returned to: Director, National Archive of Criminal Justice Data,

Inter-university Consortium for Political and Social Research, Institute for Social Research, P.O. Box 1248, University of Michigan, Ann Arbor, MI 48106-1248, or by fax: 734-647-8200.

5. Users should note that the codebook frequencies provided by ICPSR are from the public use files and that this version of the codebook documents both the public and restricted use data.

6. The following abbreviations are used in the codebook and setup files:
   LANG = Language Screen
   PC = Primary Caregiver
   SUB = Subject

7. Users should note that one value for variable LA1 was computed to system missing due to a comment in the master file. Only the administrative variables (SUBID, BASISID, WAVE, and COHORT) were kept for this. The SUBID2 value is 2002332.

Data Completeness Report

Notes: (1) Variables are individually listed only if they have greater than 5% missing data. These variables are listed under the appropriate percentage category in the order in which they appear in the data file. (2) The Data Completeness Report only captures information about system missing or other values that are declared missing. Codes that have a label implying that they are missing but that are not declared missing values are not reflected in this report. Data users should consult the codebook for more specific information about missing values. (3) Some variables that have 100% missing data may have been blanked by ICPSR to protect respondent confidentiality. Data users should consult the codebook for more specific information about blanked variables. (4) Data do not contain skip patterns or skip patterns are not reflected in the data as coded.

Table 1: Distribution of Variables by Percentage of Missing Values--Cohort 3

Variable Name and Label (Total Cases = 787)			Percent of Cases with Missing Values
25.0%	(3 of 12 variables)	have 0% Missing Values	
8.3%	(1 of 12 variables)	have 0% - 1% Missing Values	
0.0%	(0 of 12 variables)	have 1% - 3% Missing Values	
0.0%	(0 of 12 variables)	have 3% - 5% Missing Values	
0.0%	(0 of 12 variables)	have 5% - 10% Missing Values	
0.0%	(0 of 12 variables)	have 10% - 20% Missing Values	
0.0%	(0 of 12 variables)	have 20% - 40% Missing Values	
50.0%	(6 of 12 variables)	have 40% - 99% Missing Values	
	BASISID2	ICPSR Wave 2 basis ID for multi-kid household	88.2%
	LA2_1	SP language 1 (not English)	56.4%
	LA3	language spoken by SP at home	55.1%
	LA4	language spoken by SP at school	56.0%
	LA5	language spoken by SP with friends	55.5%
	LA6	SP has enough English for Stanford Binet	57.1%
16.7%	(2 of 12 variables)	have 100% missing values	
	LA2_2	SP language 2 (not English)	99.9%
	LA2_3	SP language 3 (not English)	100%
