Information about Copyrighted Content

Some instruments administered as part of this study may contain in whole or substantially in part contents from copyrighted instruments. Reproductions of the instruments are provided as documentation for the analysis of the data associated with this collection. Restrictions on "fair use" apply to all copyrighted content. More information about the reproduction of copyrighted works by educators and librarians is available from the United States Copyright Office.

NOTICE
WARNING CONCERNING COPYRIGHT RESTRICTIONS

The copyright law of the United States (Title 17, United States Code) governs the making of photocopies or other reproductions of copyrighted material. Under certain conditions specified in the law, libraries and archives are authorized to furnish a photocopy or other reproduction. One of these specified conditions is that the photocopy or reproduction is not to be "used for any purpose other than private study, scholarship, or research." If a user makes a request for, or later uses, a photocopy or reproduction for purposes in excess of "fair use," that user may be liable for copyright infringement.

National Longitudinal Study of Adolescent Health (Add Health), 1994-2008: Obesity and Neighborhood Environment Files [Restricted Use]

Variable Description and Frequencies

Note: Frequencies displayed for the variables are not weighted. They are purely descriptive and may not be representative of the study population. Please review any sampling or weighting information available with the study.

Summary statistics (minimum, maximum, mean, median, and standard deviation) may not be available for every variable in the codebook. Conversely, a listing of frequencies in table format may not be present for every variable in the codebook either. However, all variables in the dataset are present and display sufficient information about each variable. These decisions are made intentionally and are at the discretion of the archive producing this codebook.

Wave I Rural-Urban Commuting Area (RUCA)

AID	RESPONDENT ID

Location: 1-8 (width: 8; decimal: 0)
Variable Type: character
Question: Respondent identifier.
Based upon 20745 valid cases out of 20745 total cases.

W1RU1	RUCA CODE, 1990

Location: 9-11 (width: 3; decimal: 0)
Variable Type: character
Question: RUCA Code, 1990.

Value	*Label*	*Unweighted Frequency*	*%*
1.0	Metropolitan-area core: primary flow within a UA, no additio	13381	64.5 %
1.1	Metropolitan-area core: primary flow within a UA, secondary	209	1.0 %
10.	Rural areas: primary flow to a tract without a place of 2,50	1179	5.7 %
2.0	Metropolitan-area high commuting: primary flow 30% or more t	2783	13.4 %
2.2	Metropolitan-area high commuting: primary flow 30% or more t	3	0.0 %
3.0	Metropolitan-area low commuting: primary flow 5% to 30% to a	63	0.3 %
4.0	Large town core: primary flow within a place of 10,000 to 49	1054	5.1 %
4.1	Large town core: primary flow within a place of 10,000 to 49	221	1.1 %
5.0	Large town high commuting: primary flow 30% or more to a pla	375	1.8 %
6.0	Large town low commuting: primary flow 5% to 30% to a place	4	0.0 %
7.0	Small town core: primary flow within a place of 2,500 to 9,9	559	2.7 %
7.1	Small town core: primary flow within a place of 2,500 to 9,9	4	0.0 %
7.2	Small town core: primary flow within a place of 2,500 to 9,9	1	0.0 %
7.3	Small town core: primary flow within a place of 2,500 to 9,9	20	0.1 %
7.4	Small town core: primary flow within a place of 2,500 to 9,9	276	1.3 %
8.0	Small town high commuting: primary flow 30% or more to a pla	525	2.5 %
8.1	Small town high commuting: primary flow 30% or more to a pla	3	0.0 %
8.2	Small town high commuting: primary flow 30% or more to a pla	35	0.2 %
8.3	Small town high commuting: primary flow 30% or more to a pla	29	0.1 %
8.4	Small town high commuting: primary flow 30% or more to a pla	21	0.1 %

Based upon 20745 valid cases out of 20745 total cases.

W1RU2	RUCA METROPOLITAN STATUS CODE, 1990

Location: 12-12 (width: 1; decimal: 0)

Variable Type: numeric

Question: RUCA Metropolitan status code, 1990.

Value	*Label*	*Unweighted Frequency*	*%*
0	Non-metropolitan	4328	20.9 %
1	Metropolitan	16417	79.1 %

Based upon 20745 valid cases out of 20745 total cases.

- Mean: 0.79
- Median: 1.00
- Mode: 1.00
- Minimum: 0.00
- Maximum: 1.00
- Standard Deviation: 0.41
