Information about Copyrighted Content

Some instruments administered as part of this study may contain in whole or substantially in part contents from copyrighted instruments. Reproductions of the instruments are provided as documentation for the analysis of the data associated with this collection. Restrictions on "fair use" apply to all copyrighted content. More information about the reproduction of copyrighted works by educators and librarians is available from the United States Copyright Office.

NOTICE
WARNING CONCERNING COPYRIGHT RESTRICTIONS

The copyright law of the United States (Title 17, United States Code) governs the making of photocopies or other reproductions of copyrighted material. Under certain conditions specified in the law, libraries and archives are authorized to furnish a photocopy or other reproduction. One of these specified conditions is that the photocopy or reproduction is not to be "used for any purpose other than private study, scholarship, or research." If a user makes a request for, or later uses, a photocopy or reproduction for purposes in excess of "fair use," that user may be liable for copyright infringement.

Bibliographic Description

ICPSR Study No.: 23520

Title: Juvenile Residential Facility Census, 2002 [United States]

Alternate Title: JRFC 2002

Principal Investigator(s): United States Department of Justice. Office of Justice Programs. Office of Juvenile Justice and Delinquency Prevention

Series: Juvenile Residential Facility Census (JRFC) Series

Funding Agency: United States Department of Justice. Office of Justice Programs. Office of Juvenile Justice and Delinquency Prevention

Bibliographic Citation: United States Department of Justice. Office of Justice Programs. Office of Juvenile Justice and Delinquency Prevention. Juvenile Residential Facility Census, 2002 [United States] [Computer file]. ICPSR23520-v1. Ann Arbor, MI: Inter-university Consortium for Political and Social Research [distributor], 2012-02-07. doi:10.3886/ICPSR23520.v1

Scope of Study

Summary: The Juvenile Residential Facility Census (JRFC) collected basic information on facility characteristics, including size, structure, security arrangements, and ownership. It also collected information on the use of bedspace in the facility to indicate whether the facility was experiencing crowding. The JRFC included questions about the type of facility, such as detention center, training school, ranch, or group home. This information was complemented by a series of questions about other residential services provided by the facility, such as independent living, foster care, or other arrangements. In 2002, the JRFC used two modules to collect information on the substance abuse treatment and mental health treatment provided to youth in these facilities. While not evaluating the effectiveness or quality of these services, the JRFC gathered important information about the youth the services were directed toward and how the services were provided. The census indicated the use of screenings or tests conducted to determine counseling, education, health, or substance abuse needs, and also examined prominent issues about conditions of confinement, including the restraint of youth and improper absences from the facility. Congress requires the Office of Juvenile Justice and Delinquency Prevention (OJJDP) to report annually on the number of deaths of juveniles in custody; JRFC collected information

on such deaths for the one-year period just prior to the census reference date. The census reference date was the fourth Wednesday in October.

Subject Term(s): census data, correctional facilities, group homes, juvenile detention, juvenile offenders, juveniles, mental health services, substance abuse treatment

Smallest Geographic Unit: state

Geographic Coverage: Alabama, Alaska, Arizona, Arkansas, California, Colorado, Connecticut, Delaware, District of Columbia, Florida, Georgia, Hawaii, Idaho, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Maine, Maryland, Massachusetts, Michigan, Minnesota, Mississippi, Missouri, Montana, Nebraska, Nevada, New Hampshire, New Jersey, New Mexico, New York (state), North Carolina, North Dakota, Ohio, Oklahoma, Oregon, Pennsylvania, Rhode Island, South Carolina, South Dakota, Tennessee, Texas, United States, Utah, Vermont, Virginia, Washington, West Virginia, Wisconsin, Wyoming

Time Period: 2002

Date(s) of Collection: October 23, 2002, fourth Wednesday in October

Unit of Observation: facility

Universe: Juvenile residential facilities in the United States holding at least one juvenile for an offense on the census reference date in 2002.

Data Type: census/enumeration data

Data Collection Notes: Additional information about the JRFC and other national juvenile corrections data collections sponsored by OJJDP is available from the National Juvenile Corrections Data Resource Guide (Link).

Individual years of data from the Census of Juveniles in Residential Placement (CJRP) and Juvenile Residential Facility Census (JRFC), a compliment to the CJRP data, are available through enclave access. Users interested in utilizing the enclave data must complete an Application for Use of the ICPSR Data Enclave. Additional data in the CJRP Series (Link), JRFC Series (Link), and the Matched CJRP/JRFC Series (Link) will be made available in March 2012 through the National Archive of Criminal Justice Data's Restricted Survey Documentation and Analysis (RSDA) system. Users interested in accessing these data through NACJD's RSDA system must complete a RSDA Data Use Agreement.

Methodology

Sample: The inclusion criteria for facilities in the census were: the facility must house persons under the age of 21 who were charged with or adjudicated for an offense, and were present in the facility on the reference date because of that offense. JRFC did not capture data on adult prisons or jails, nor did it include facilities that are used exclusively for mental health or substance abuse treatment or for dependent children.

Data Source: United States Bureau of the Census questionnaires

Mode of Data Collection: mail questionnaire

Response Rates: Not available.

Extent of Processing: Created variable labels and/or value labels.

Standardized missing values.

Checked for undocumented or out-of-range codes.

Access and Availability

Note: A list of the data formats available for this study can be found in the summary of holdings. Detailed file-level information (such as record length, case count, and variable count) is listed in the file manifest.

Restrictions: Due to the sensitive nature of the data and to protect respondent confidentiality, the data are restricted from general dissemination. Users interested in utilizing these data must complete an Application for Use of the ICPSR Data Enclave. Information about the ICPSR Data Enclave and the application for use can be found under Enclave Data (Link) on the ICPSR Web site. Researchers can also download a copy of the Application for Use of the ICPSR Data Enclave as a Portable Document (PDF) file from the download page associated with this dataset. Completed forms should be returned to: Director, National Archive of Criminal Justice Data, Inter-university Consortium for Political and Social Research, Institute for Social Research, P.O. Box 1248, University of Michigan, Ann Arbor, MI 48106-1248, or by fax: 734-647-8200.

Original ICPSR Release: 2012-02-07

Publications

Final Reports and Other Publication Resources:

A list of publications related to, or based on, this data collection can be accessed from the study's download page on the NACJD Web site or through the ICPSR Bibliography of Data-Related Literature at http://www.icpsr.umich.edu/ICPSR/citations/index.html. The list of citations includes links to abstracts and publications in Portable Document Format (PDF) files or text files when available.

Final reports and other publications describing research conducted on a variety of criminal justice topics are available from the National Criminal Justice Reference Service (NCJRS). NCJRS was established in 1972 by the National Institute of Justice (NIJ), an agency of the U.S. Department of Justice, to provide research findings to criminal justice professionals and researchers. NCJRS operates specialized clearinghouses that are staffed by information specialists who supply a range of reference, referral, and distribution services. Publications can be obtained from NCJRS at NIJ/NCJRS, Box 6000, Rockville, MD, 20849-6000, 800-851-3420 or 301-519-5500. TTY Service for the Hearing Impaired is 877-712-9279 (toll-free) or 301-947-8374 (local). The URL for the NCJRS Web site is:

http://www.ncjrs.org/

Office of Juvenile Justice and Delinquency Prevention

About the OJJDP:

The Office of Juvenile Justice and Delinquency Prevention (OJJDP) provides national leadership, coordination and resources to prevent and respond to juvenile delinquency and victimization. OJJDP provides funding to states, territories, localities, and private organizations, including faith-based institutions, through formula and block grants and discretionary grants. They make datasets from OJJDP-funded research and evaluation projects available to the research community and sponsor research and training activities devoted to secondary data analysis. Datasets are archived by the National Archive of Criminal Justice Data (NACJD) at the Inter-university Consortium for Political and Social Research (ICPSR) at the University of Michigan.

The NACJD maintains a World Wide Web site with instructions for transferring files and sending messages. Criminal justice data funded by the Department of Justice are available via the Internet at this site at no charge to the user. NACJD may be contacted at NACJD/ICPSR, P.O. Box 1248, Ann Arbor, MI, 48106-1248, 800-999-0960. The URL for the NACJD Web site is:

http://www.icpsr.umich.edu/NACJD/

Data Completeness Report

Notes: (1) Variables are individually listed only if they have greater than 5% missing data. These variables are listed under the appropriate percentage category in the order in which they appear in the data file. (2) The Data Completeness Report only captures information about system missing or other values that are declared missing. Codes that have a label implying that they are missing but that are not declared missing values are not reflected in this report. Data users should consult the codebook for more specific information about missing values. (3) Some variables that have 100% missing data may have been blanked by ICPSR to protect respondent confidentiality. Data users should consult the codebook for more specific information about blanked variables. (4) Data do not contain skip patterns or skip patterns are not reflected in the data as coded.

Table 1: Distribution of Variables by Percentage of Missing Values

Variable Name and Label (Total Cases = 3534)		Percent of Cases with Missing Values
14.2% (50 of 351 variables)	have 0% Missing Values	
4.6% (16 of 351 variables)	have 0% - 1% Missing Values	
0.9% (3 of 351 variables)	have 1% - 3% Missing Values	
5.4% (19 of 351 variables)	have 3% - 5% Missing Values
