BIBLIOGRAPHIC CITATION

Publications based on ICPSR data collections should acknowledge those sources by means of bibliographic citations. To ensure that such source attributions are captured for social science bibliographic utilities, citations must appear in footnotes or in the reference section of publications. The bibliographic citation for this data collection is:

> Andersen, Ronald M., and Lu Ann Aday. NATIONAL SURVEY OF ACCESS TO MEDICAL CARE, 1982 [Computer file]. ICPSR version. Chicago, IL: Ronald M. Andersen and Lu Ann Aday [producers], 1984. Ann Arbor, MI: Inter-university Consortium for Political and Social Research [distributor], 1999.

REQUEST FOR INFORMATION ON USE OF ICPSR RESOURCES

To provide funding agencies with essential information about use of archival resources and to facilitate the exchange of information about ICPSR participants' research activities, users of ICPSR data are requested to send to ICPSR bibliographic citations for each completed manuscript or thesis abstract. Please indicate in a cover letter which data were used.

DATA DISCLAIMER

The original collector of the data, ICPSR, and the relevant funding agency bear no responsibility for uses of this collection or for interpretations or inferences based upon such uses.

DATA COLLECTION DESCRIPTION

Ronald M. Andersen and Lu Ann Aday

NATIONAL SURVEY OF ACCESS TO MEDICAL CARE, 1982 (ICPSR 8244)

SUMMARY: The purpose of this study, which served to update information available from previous Center for Health Administration Studies/National Opinion Research Center surveys in 1953, 1958, 1963, 1970, and 1976, was to provide current data on the accessibility of medical care for the United States population. The survey collected information on usual sources of medical care, sources of medical care utilized, problems associated with access to sources of care, satisfaction with medical services received, utilization of medical diagnostic procedures, health insurance coverage, episodes of illness, and other health-related issues. Additional information collected by the survey includes household composition, age, sex, income, race, education, employment status, and occupation.

UNIVERSE: All households in the United States with telephones.

SAMPLING: A sample was selected using random-digit dialing. Low-income households were oversampled.

NOTE: The documentation for this collection includes the codebook, a file with frequencies and univariate statistics, and an appendix comprising additional documentation and the questionnaires. The codebook and frequencies file are provided as ASCII text files and Portable Document Format (PDF) files. The appendix is provided only as a PDF file. The PDF file format was developed by Adobe Systems Incorporated and can be accessed using PDF reader software, such as the Adobe Acrobat Reader. Information on how to obtain a copy of the Acrobat Reader is provided through the ICPSR Website on the Internet.

EXTENT OF COLLECTION: 1 data file + machine-readable documentation (text and PDF) + SPSS data definition statements

EXTENT OF PROCESSING: FREQ.PR/ SCAN/ REFORM.DOC

EXTENT OF PROCESSING: DDEF.ICPSR/ FREQ.PR/ MDATA.PR/ REFORM.DOC/ SCAN

DATA FORMAT: Logical Record Length with SPSS data definition statements

File Structure: rectangular
Cases: 6,610
Variables: 474
Record Length: 4,000
Records Per Case: 1
