Information about Copyrighted Content

Some instruments administered as part of this study may contain in whole or substantially in part contents from copyrighted instruments. Reproductions of the instruments are provided as documentation for the analysis of the data associated with this collection. Restrictions on "fair use" apply to all copyrighted content. More information about the reproduction of copyrighted works by educators and librarians is available from the United States Copyright Office.

NOTICE
WARNING CONCERNING COPYRIGHT RESTRICTIONS

The copyright law of the United States (Title 17, United States Code) governs the making of photocopies or other reproductions of copyrighted material. Under certain conditions specified in the law, libraries and archives are authorized to furnish a photocopy or other reproduction. One of these specified conditions is that the photocopy or reproduction is not to be "used for any purpose other than private study, scholarship, or research." If a user makes a request for, or later uses, a photocopy or reproduction for purposes in excess of "fair use," that user may be liable for copyright infringement.

To request the Vital Statistics file linked to the NLTCS Public Use file, contact CMS at 410-786-3690.

SAS Name	Variable Description	Data Type	ASCII Start	Length (Format)	Values	Values Description
SEQ	Sequence number ID	Integer	1	5	1 - 41,947	Anonymous Unique Observation Identifier
SEX	Sex	Integer	6	1	1	Male
					2	Female
RACE_DET	Race (Detailed)	Integer	7	1	0	Missing
					1	White
					2	Black
					3	Asian/Pacific Islander
					4	American Indian/Eskimo/Aleut
					5	Other

URBAN_RURAL99	1999 Urban/Rural Designation If the 1999 Screener zip code fell within a MSA or PMSA as of September 2000, a designation of Urban' was made. Otherwise, a designation of Rural' was made. CD Light, Limited Liability Corp. was the source for the MSA/PMSA data.	Integer	562	1		0: Unknown 1: Urban 2: Rural 9: Not In Survey Year
SURVEY82	1982 Survey Designation	Integer	563	2		1 = 'Screener Only (Screened Out)'
SURVEY84	1984 Survey Designation	Integer	565	2		2 = 'Community Survey'
SURVEY89	1989 Survey Designation	Integer	567	2		3 = 'Community with Caregiver'
						4 = 'Institutional'
						5 = 'Screener Non-Interview'
						6 = 'Detailed Non-Interview'
						7 = 'Next-of-Kin interview'

1) Since a deceased questionnaire was administered in 1984, the number of 'Nonresponse-Deceased' is zero for 1984.

2) Includes both Type A (within sample universe) and Type C (out of sample universe) nonresponse.

3) Includes people nondisabled on ADL measure and people who require assistance or equipment to perform the ADL.

4) Missing values for race were imputed for 208 observations.

5) The 'Heavy Housework' IADL is not used to determine disability on the Screener questionnaire. It is only assessed on the Community questionnaire.
This condition required CDS to implement a consistency check in calculating its disability group variables.

SAS Name	Variable Description	Data Type	ASCII Start	Length (Format)	Values	Values Description
If ' Heavy Housework' was the individual' s only disability measure, ADL or IADL, and they were a member of the survey subgroup that automatically received a detailed questionnaire, they were considered "non-disabled." Had they received a screener, they would not have been asked about heavy housework and would, as far as anyone can know, been considered non-disabled, and not have been selected. However, if the individual was part of the group that received a screener questionnaire, and was selected for a detailed interview because they scored as disabled at the time of the screen, they were considered "IADL only".
