Bibliographic Description

ICPSR Study No.: 9294

Title: County Population Estimates (Experimental) by Age, Sex, and Race: 1980-1985

Principal Investigator(s): United States Department of Commerce. Bureau of the Census

Bibliographic Citation: U.S. Dept. of Commerce, Bureau of the Census. COUNTY POPULATION ESTIMATES (EXPERIMENTAL) BY AGE, SEX, AND RACE: 1980-1985 [Computer file]. Washington, DC: U.S. Dept. of Commerce, Bureau of the Census [producer], 1989. Ann Arbor, MI: Inter-university Consortium for Political and Social Research [distributor], 1990. doi:10.3886/ICPSR09294.v1

Scope of Study

Summary: This dataset contains county population estimates for July 1, 1980 through 1985. Estimates are provided by age (18 age groups), sex, and race (White, Black, and other races). These estimates make full use of 1980 Census data on gross in- and out-migration for counties. The data are considered experimental, and replace estimates labeled "provisional." Because the data were originally prepared for the National Cancer Institute (NCI) they are sometimes referred to by that name.

Subject Term(s): census county divisions, census data, counties, demographic characteristics, population estimates, population migration, statistical data, trend analysis

Geographic Coverage: United States

Time Period: 1980 - 1985

Universe: All persons in the United States.

Data Type: aggregate data

Data Collection Notes: These data were prepared by the Bureau of the Census, in fulfillment of a contract with the National Cancer Institute, for the purpose of analyzing indices of cancer mortality. Users are reminded that these data are considered experimental, and that evaluation of these estimates is incomplete at this time. There are special problems related to the estimates for a few states and counties. The Census Bureau requests

that all users see Attachment 3 in the codebook for a statement regarding usage of the data.

Methodology

Access and Availability

Note: A list of the data formats available for this study can be found in the summary of holdings. Detailed file-level information (such as record length, case count, and variable count) is listed in the file manifest.

Original ICPSR Release: 1990-03-02

Version History: The last update of this study occurred on 1992-02-17.
