ICPSR PROCESSING NOTES

The following codebook notes will be added for all Wave 1 Cohort studies.

1. The Murray Research Center conducted the initial data and documentation processing for this collection, including the initial confidentiality review. ICPSR performed the following additional checks:
 - verified that respondent confidentiality was protected
 - checked for undocumented codes for categorical variables and out-of-range values for continuous variables
 - noted inconsistencies in missing value designations.
2. ICPSR altered the data files from the Murray Research Center in the following ways:
 - reordered the variables so that the administrative variables (e.g., ID, wave number, cohort number, and dates) were at the beginning of each file and that the order of the other variables followed the data collection instrument
 - reformatted date and time variables to make them compatible across statistical packages
 - standardized abbreviations in variable and value labels and fixed misspellings in order to facilitate metadata searching
 - recoded character variables to numeric variables and standardized response codes across cohorts.
3. The Murray Research Center converted the original data collection instruments to Portable Document Format (PDF). ICPSR enhanced this PDF document by making all of the text searchable. The document is distributed as the questionnaire file for this study. Additionally, ICPSR created the following PDF documentation:
 - Data Completeness Reports summarizing the amount of missing data in each file
 - codebooks listing the metadata for each variable, as well as frequencies, summary statistics, and, in some cases, original question text
 - processing notes and appendices documenting additional information, as necessary.
4. As noted above, ICPSR recoded all character variables to numeric. ICPSR simply assigned the character values to a number and used the text of the character variable as a value label. ICPSR did not alter the text from the character variable; therefore, the value labels may contain spelling errors or unusual characters (e.g., *). ICPSR standardized the numbering of the responses across all files in the study to facilitate

comparison across files. The following character variables were recoded to numeric variables for this data collection:

YASRFILE
YASRRAID

5. The following abbreviations are used in the codebook and setup files:

PC = Primary Caregiver
SUB = Subject
IAU = Infant Assessment Unit
HOME = Home Observation for Measurement of the Environment
DCS = Infant Day Care Screen
IBQ = Infant Behavior Questionnaire
GAF = Growth Assessment Form
MSSI = Maternal Social Support Index
YASR = Young Adult Self Report
MIH = Maternal and Infant Health Survey
IBR = Infant Behavior Ratings
VRM = Visual Recognition Memory Paradigm
IDPH = Illinois Department of Public Health
ADF = Assessment Debriefing Form

Data Completeness Report

Notes: (1) Variables are individually listed only if they have greater than 5% missing data. These variables are listed under the appropriate percentage category in the order in which they appear in the data file. (2) The Data Completeness Report only captures information about system missing or other values that are declared missing. Codes that have a label implying that they are missing but that are not declared missing values are not reflected in this report. Data users should consult the codebook for more specific information about missing values. (3) Some variables that have 100% missing data may have been blanked by ICPSR to protect respondent confidentiality. Data users should consult the codebook for more specific information about blanked variables. (4) Data do not contain skip patterns or skip patterns are not reflected in the data as coded.

Table 1: Distribution of Variables by Percentage of Missing Values--Young Adult Self Report

Variable Name and Label (Total Cases = 410)	Percent of Cases with Missing Values
9.0% (16 of 178 variables)	have 0% Missing Values
60.1% (107 of 178 variables)	have 0% - 1% Missing Values
10.1% (18 of 178 variables)	have 1% - 3% Missing Values
1.7% (3 of 178 variables)	have 3% - 5% Missing Values
2.8% (5 of 178 variables)	have 5% - 10% Missing Values
YA23	break rules at school/work 7.1%
YA133	average # drinks/week, last 6 months 6.6%
YA135	concerned about amount of alcohol drink? 9.3%
YA136	others concerned about your drinking? 8.3%
YA137	# times used non-med drugs, last 6 mos 7.6%
5.6% (10 of 178 variables)	have 10% - 20% Missing Values
YA61	school work/job performance is poor 12.7%
YA81	worry about job/school work 11.2%
YA125	feel satisfied with partner 11.5%
YA126	partner & I disagree about money 12.2%
YA127	partner & I disagree about amount time together 11.5%
YA128	partner & I disagree about activities together 11.7%
YA129	partner & I enjoy similar activities 12.2%
YA130	partner & I disagree about sexual matters 12.4%
YA131	partner & I disagree about living arrange 11.5%
YA132	have trouble w/partner's family 11.0%
0.0% (0 of 178 variables)	have 20% - 40% Missing Values
10.7% (19 of 178 variables)	have 40% - 100% Missing Values
YA117	have trouble getting work done 52.0%
YA118	am satisfied with job situation 52.0%
YA119	do things that may cause loss of job 52.0%

Table 1: Distribution of Variables by Percentage of Missing Values--Young Adult Self Report

Variable Name and Label (Total Cases = 410)		Percent of Cases with Missing Values
YA120	stay away from job even if not sick	52.0%
YA121	have trouble studying	78.0%
YA122	am satisfied with school situation	78.3%
YA123	have trouble getting along with teachers	78.3%
YA124	skip classes even if not sick	78.3%
YA134	# times drunk, last 6 months	58.3%
YA137A	# times used non-med drugs, last 6 mos	98.8%
YA138A	used marijuana in last 6 months?	98.0%
YA138B	used amphetamines in last 6 months?	98.0%
YA138C	used hashish in last 6 months?	98.0%
YA138D	used cocaine in last 6 months?	98.0%
YA138E	used crack in last 6 months?	98.0%
YA138F	used PCP in last 6 months?	98.0%
YA138G	used heroin in last 6 months?	98.0%
YA138H	used LSD in last 6 months?	98.0%
YA138I	used other drug in last 6 months?	98.0%
