ICPSR PROCESSING NOTES

1. The Murray Research Center conducted the initial data and documentation processing for this collection, including the initial confidentiality review. ICPSR performed the following additional checks:
 - verified that respondent confidentiality was protected
 - checked for undocumented codes for categorical variables and out-of-range values for continuous variables
 - noted inconsistencies in missing value designations.
2. ICPSR altered the data files from the Murray Research Center in the following ways:
 - reordered the variables so that the administrative variables (e.g., ID, wave number, cohort number, and dates) were at the beginning of each file and that the order of the other variables followed the data collection instrument
 - reformatted date and time variables to make them compatible across statistical packages
 - standardized abbreviations in variable and value labels and fixed misspellings in order to facilitate metadata searching
 - recoded character variables to numeric variables and standardized response codes across cohorts.
3. The Murray Research Center converted the original data collection instruments to Portable Document Format (PDF). ICPSR enhanced this PDF document by making all of the text searchable. The document is distributed as the questionnaire file for this study. Additionally, ICPSR created the following PDF documentation:
 - Data Completeness Reports summarizing the amount of missing data in each file
 - codebooks listing the metadata for each variable, as well as frequencies, summary statistics, and, in some cases, original question text
 - processing notes and appendices documenting additional information, as necessary.
4. Users should note that the values for variables SUBID3 and BASISID3 have been reassigned from the original variables SUBID and BASISID in order to protect respondent privacy. Users interested in obtaining these data must complete a Data Transfer Agreement Form and specify the reasons for the request. A copy of the Data Transfer Agreement Form can be requested by calling 800-999-0960. The Data Transfer Agreement Form is also available as a Portable Document Format (PDF) file from the NACJD Web site at <http://www.icpsr.umich.edu/NACJD/>

Private/private.pdf. Completed forms should be returned to: Director, National Archive of Criminal Justice Data, Inter-university Consortium for Political and Social Research, Institute for Social Research, P.O. Box 1248, University of Michigan, Ann Arbor, MI 48106-1248, or by fax: 734-647-8200.

5. Users should note that the codebook frequencies provided by ICPSR are from the public use files and that this version of the codebook documents both the public and restricted use data.
6. The following abbreviations are used in the codebook and setup files:
PMC = Primary Male Caregiver
PC = Primary Caregiver
SUB = Subject
7. The following continuous variables have values that appear to be out of a valid range:
PM6C # years involved w/ SP, man who raised SP - value of 90 (1 case)

Data Completeness Report

Notes: (1) Variables are individually listed only if they have greater than 5% missing data. These variables are listed under the appropriate percentage category in the order in which they appear in the data file. (2) The Data Completeness Report only captures information about system missing or other values that are declared missing. Codes that have a label implying that they are missing but that are not declared missing values are not reflected in this report. Data users should consult the codebook for more specific information about missing values. (3) Some variables that have 100% missing data may have been blanked by ICPSR to protect respondent confidentiality. Data users should consult the codebook for more specific information about blanked variables. (4) Data do not contain skip patterns or skip patterns are not reflected in the data as coded.

Table 1: Distribution of Variables by Percentage of Missing Values--Cohort 0

Variable Name and Label (Total Cases = 960)		Percent of Cases with Missing Values
7.0% (4 of 57 variables)		have 0% Missing Values
3.5% (2 of 57 variables)		have 0% - 1% Missing Values
0.0% (0 of 57 variables)		have 1% - 3% Missing Values
0.0% (0 of 57 variables)		have 3% - 5% Missing Values
14.0% (8 of 57 variables)		have 5% - 10% Missing Values
PM6C	# years involved w/ SP, man who raised SP	7.2%
PM7	PMC ever mostly sad 2 weeks or more since SP's birth?	6.8%
PM10	PMC ever smoke cigarettes since SP birth?	7.6%
PM11	PMC ever problem w/ drinking?	6.6%
PM12	PMC ever problem w/ prescription drugs?	6.5%
PM13	PMC ever problem w/ illegal drugs?	6.6%
PM26	PMC ever attempt suicide?	7.6%
PM27	PMC ever MD/medication/hospitalized for emo/beh/drg prob?	8.3%
19.3% (11 of 57 variables)		have 10% - 20% Missing Values
PM2	relation to SP, current male caregiver	13.3%
PM4C	average # days/week SP spend time w/ current male	14.3%
PM4E	average # days/week current male help care for SP	14.5%
PM4F	frequency current male & SP do enjoyable things together	12.1%
PM4G	frequency current male & SP go places together	12.1%
PM20	PMC ever trouble holding job?	13.2%
PM21	PMC lie a lot?	13.1%
PM22	PMC often get in physical fights?	13.0%
PM23	PMC ever involved in criminal activities?	13.0%
PM24	PMC ever arrested/sent to prison?	12.9%
PM25	PMC ever run around/desert family?	13.2%
3.5% (2 of 57 variables)		have 20% - 40% Missing Values

Table 1: Distribution of Variables by Percentage of Missing Values--Cohort 0

Variable Name and Label (Total Cases = 960)		Percent of Cases with Missing Values
PM4B	amount time current male spent w/ SP, past year	23.9%
PM4D	frequency current male help SP with homework	27.9%
52.6% (30 of 57 variables) have 40% - 99% Missing Values		
BASISID3	ICPSR Wave 3 subject ID	89.6%
PM5	SP contact with birth dad, past year?	75.6%
PM5C	amount time birth dad spent w/ SP, past year	88.5%
PM5D	average # days/week SP spends time w/ birth dad	87.6%
PM5E	average # days/week birth dad helps care for SP	91.0%
PM8	part of SP's life PMC was sad	89.1%
PM8A	PMC lose interest, worst depression?	89.0%
PM8B	PMC lose energy, worst depression?	89.0%
PM8C	PMC appetite/weight change, worst depression?	89.1%
PM8D	PMC sleep habit change, worst depression?	89.3%
PM8E	PMC move unusually slow, worst depression?	89.4%
PM8F	PMC fidgety, worst depression?	89.2%
PM8G	PMC guilty, worst depression?	89.1%
PM8H	PMC trouble concentrate, worst depression?	89.2%
PM8I	PMC talk/attempt harm self, worst depression?	89.0%
PM9	PMC ever professional treatment for depression?	90.6%
PM9A	PMC ever hospitalized for depression?	97.5%
PM9B	PMC depression ever interfere a lot w/ life?	90.5%
PM9C	PMC depression ever negatively effect relation w/ SP?	90.5%
PM10A	PMC regular smoker?	65.1%
PM14	part of SP's life PMC had alcohol/drug problem	89.1%
PM15A	PMC legal problem from alcohol/drug use?	89.8%
PM15B	PMC health problem from alcohol/drug use?	89.8%
PM15C	PMC family problem from alcohol/drug use?	89.7%
PM15D	PMC social problem from alcohol/drug use?	89.8%
PM15E	PMC work problem from alcohol/drug use?	89.7%
PM16	PMC ever professional treatment for alcohol/drug use?	92.1%
PM17	PMC ever hospitalized for alcohol/drug use?	95.8%
PM18	PMC alcohol/drug use ever interfere a lot w/ life?	92.4%
PM19	PMC alcohol/drug use ever negatively effect relation w/ SP	92.5%
0.0% (0 of 57 variables) have 100% missing values		

Codebook for ICPSR 13731

Project on Human Development in Chicago Neighborhoods (PHDCN): Primary Male Caregiver, Wave 3, 2000-2002

Dataset0001: Cohort 0

Variable Variable Description

Please Note: The "(M)" to the right of the value indicates the code has been designated as a missing value.
