## Information about Copyrighted Content

Some instruments administered as part of this study may contain in whole or substantially in part contents from copyrighted instruments. Reproductions of the instruments are provided as documentation for the analysis of the data associated with this collection. Restrictions on "fair use" apply to all copyrighted content. More information about the reproduction of copyrighted works by educators and librarians is available from the United States Copyright Office.

### NOTICE

#### WARNING CONCERNING COPYRIGHT RESTRICTIONS

The copyright law of the United States (Title 17, United States Code) governs the making of photocopies or other reproductions of copyrighted material. Under certain conditions specified in the law, libraries and archives are authorized to furnish a photocopy or other reproduction. One of these specified conditions is that the photocopy or reproduction is not to be "used for any purpose other than private study, scholarship, or research." If a user makes a request for, or later uses, a photocopy or reproduction for purposes in excess of "fair use," that user may be liable for copyright infringement.

***This section is administered to respondents who reported a pregnancy in Section 16. Pregnancy questions are asked for all relationships listed in Section 16 that show a pregnancy. The response to H4TR18 (total number of pregnancies reported with a particular partner) determines the number of pregnancy records generated for each relationship. Thus, for each partner, {fill H4TR18} pregnancy observations are generated to indicate the 1st to the {fill H4TR18} pregnancy with that partner. The pregnancy number is saved in constructed variable PRGNO.***
