Information about Copyrighted Content

Some instruments administered as part of this study may contain in whole or substantially in part contents from copyrighted instruments. Reproductions of the instruments are provided as documentation for the analysis of the data associated with this collection. Restrictions on "fair use" apply to all copyrighted content. More information about the reproduction of copyrighted works by educators and librarians is available from the United States Copyright Office.

NOTICE

WARNING CONCERNING COPYRIGHT RESTRICTIONS

The copyright law of the United States (Title 17, United States Code) governs the making of photocopies or other reproductions of copyrighted material. Under certain conditions specified in the law, libraries and archives are authorized to furnish a photocopy or other reproduction. One of these specified conditions is that the photocopy or reproduction is not to be "used for any purpose other than private study, scholarship, or research." If a user makes a request for, or later uses, a photocopy or reproduction for purposes in excess of "fair use," that user may be liable for copyright infringement.

PROCESSING NOTES FOR ICPSR #25162

Eurobarometer 68.2: European Union Policy and Decision Making, Corruption, Civil Justice, E-Communications, Agriculture, and Environmental Protection, November 2007-January 2008

- 1) Data for all previously-embargoed variables are now available.
- 2) The setup files may contain references to Norway, but Norway was not a participant in this wave of Eurobarometer surveys. This collection contains no data for Norway.
- 3) Some of the variables in this collection have a large amount of values. When tabulating these variables in Stata (Windows and Linux), an error message “too many values” appears.

To prevent this error message, the *tab1* command can be run using ranges of values specified after the *if* statement.

e.g., *tab1 VAR1 if VAR1 >0 & VAR1 <=45000*

tab1 VAR1 if VAR1 >45000 & VAR1 <=100000

In addition, the command *bigtab* can be used (e.g., *bigtab VAR1*), but in Windows only. It is available via download by typing the Stata command line *ssc install bigtab*. (*bigtab* Author: Paul H. Bern, Princeton University).

- 4) The E-communications module (QD) replicates questions asked in the framework of Eurobarometer 64.4 (ICPSR 4667) and 66.3 (ICPSR 21523).

For section QD of the questionnaire where respondents are asked to answer for their household, the 'number of individuals in each household' was introduced as additional weighting criterion, and the representative samples of individuals aged 15 and more converted into household samples. For more details, please review the “Archive Remarks” and “Technical Specifications: Household Survey” sections of the ICPSR codebook.

- 5) The fieldwork dates in the data file for Bulgaria and Slovenia are not consistent with the fieldwork dates in the “Technical Specifications” section of the ICPSR codebook. Also, the data indicate that all surveys were completed by January 16, 2008.

For reference, the fieldwork dates for Bulgaria and Slovenia in accordance with the data file are listed below:

Country	Fieldwork Dates	
Bulgaria	09/11/2007	02/12/2007
Slovenia	11/11/2007	11/12/2007

- 6) For questions QB5o, QC4o, QC8o, QD8o, QD12o, QE4ao, QE4bo, QE13o, QE14o, QF2o, QF13o, and QF14o, please refer to the "Appendix" section of the ICPSR codebook for country-specific response categories. This information is being released as provided by the data producer and has not been checked by ICPSR for discrepancies as compared to the data.
- 7) The title page to the questionnaire states "BASIC ENGLISH QUESTIONNAIRE"; however, it should read "BASIC BILINGUAL QUESTIONNAIRE".

ARCHIVE REMARKS FOR ICPSR #25162

Eurobarometer 68.2: European Union Policy and Decision Making, Corruption, Civil Justice, E-Communications, Agriculture, and Environmental Protection, November 2007-January 2008

- V1 ARCHIVE STUDY NUMBER DISTRIBUTOR
- Study Number of the distributing data archive.
- V2 ARCHIVE STUDY NUMBER PRODUCER
- Study number of the producer of this data set edition.
- V3 VERSION AND RELEASE DATE OF THE ARCHIVE DATA SET
- This variable identifies the GESIS archive version number of this data set and the corresponding release date, recorded as a string. The version number is composed of a sequence of three numbers. The major number is incremented when there are changes in the composition of the data set (e.g., additional variables or cases), the minor or second number is incremented when significant errors have been fixed (e.g., coding errors, misleading value labels), and the third or revision number is incremented when minor bugs are fixed (e.g., spelling errors in variable or value labels).
- V4 EUROBAROMETER SURVEY NUMBER
- The number identifying the Eurobarometer survey.
- V5 UNIQUE CASE ID (TNS COUNTRY ID + TNS INTERVIEW ID)
- This unique respondent identification is composed of the original TNS country code and the original TNS interview number. The first two digits identify the country of interview (01: Belgium; 02: Denmark; 04: Greece; 05: Spain; 06: Finland; 07: France; 08: Ireland; 09: Italy; 10: Luxembourg; 11: Netherlands; 12: Austria; 13: Portugal; 14: Sweden; 20: Germany West; 21: Germany East; 22: Great Britain; 23: Northern Ireland; 31: Bulgaria; 32: Cyprus (Republic); 33: Czech Republic; 34: Estonia; 35: Hungary; 36: Latvia; 37: Lithuania; 38: Malta; 39: Poland; 40: Romania; 41: Slovakia; 42: Slovenia). The remaining digits contain the country-specific questionnaire numbers.

Note: Actual number is coded.

- V6 NATION - ALL SAMPLES
- All samples including separate samples for East and West Germany and for Great Britain and Northern Ireland.
- Note: Use of weighting factor W1 (V8) is optional.
- V7 NATION ALL - ISO LABELS
- All samples including separate samples for East and West Germany and for Great Britain and Northern Ireland.
- Note: Use of weighting factor W1 (V8) is optional.
- V8 W1 WEIGHT RESULT FROM TARGET
- This POST-STRATIFICATION WEIGHT is based on a comparison for each sample with the respective universe description. As such in all countries, gender, age, region and size of locality are introduced in the iteration procedure carried out by the fieldwork institutes. British and Northern Irish as well as East and West German samples are weighted separately. The weight reproduces the real number of cases for each country. In terms of its general function it corresponds to former NATION WEIGHT II (until EUROBAROMETER 31).
- V9 NATION - UNITED KINGDOM
- Great Britain and Northern Ireland are coded together.
- Note: Use of weighting factor W4 (V10) is mandatory.
- V10 W4 WEIGHT UNITED KINGDOM
- This POPULATION SIZE WEIGHT adjusts the British and the Northern Irish (sub-national) samples to their share in the total population aged 15 and over in the United Kingdom. It must be applied whenever the United Kingdom is to be analyzed as a whole. The post-stratification weighting factors are included for both samples. All other samples are excluded from analysis. In terms of its general function the weight corresponds to former NATION WEIGHT I (until EUROBAROMETER 31).

- V11 NATION - UNITED GERMANY
- East and West Germany are coded together.
Note: Use of weighting factor W3 (V12) is mandatory.
- V12 W3 WEIGHT GERMANY
- This POPULATION SIZE WEIGHT adjusts the East and the West German (sub-national) samples to their share in the total population aged 15 and over, of the united Germany. It must be applied whenever Germany is to be analyzed as a whole. The post-stratification weighting factors are included for both samples. All other samples are excluded from analysis.
- V13 NATION GROUP EU6
- NATION GROUP EU6 only refers to the six EC founder-members (France, Belgium, the Netherlands, West Germany, Italy and Luxembourg).
- Note: Use of weighting factor W5 (V14) is mandatory.
- V14 W5 WEIGHT EU6
- This POPULATION SIZE WEIGHT refers to the six EC founder members: France, Belgium, Netherlands, West Germany, Italy, and Luxembourg. It adjusts each national sample in proportion to its share in the total population aged 15 and over, of this (historical) subgroup of countries. The post-stratification weighting factors are included. All other samples are excluded from calculation. WEIGHT EU6 must be applied whenever these six EC founder countries are to be analyzed altogether as a group.
- V15 NATION GROUP EU9
- NATION GROUP EU9 adds Denmark, Ireland, Great Britain and Northern Ireland to the EU6 countries.
- Note: Use of weighting factor W6 (V16) is mandatory.
- V16 W6 WEIGHT EU9
- This POPULATION SIZE WEIGHT adds Denmark, Ireland, Great Britain and Northern Ireland to the EU6 countries. It adjusts each national sample in proportion to its share in the total population aged 15 and over, of this (historical) subgroup of countries. The

post-stratification weighting factors are included. All other samples are excluded from calculation. WEIGHT EU9 must be applied whenever these nine countries as of the 1973 enlargement are to be analyzed altogether as a group.

V17 NATION GROUP EU10

NATION GROUP EU10 adds Greece to the EU9 countries (new member as of January 1981).

Note: Use of weighting factor W7 (V18) is mandatory.

V18 W7 WEIGHT EU10

This POPULATION SIZE WEIGHT adds Greece to the EU9 countries. It adjusts each national sample in proportion to its share in the total population aged 15 and over, of this (historical) subgroup of countries. The post-stratification weighting factors are included. All other samples are excluded from calculation. WEIGHT EU10 must be applied whenever these ten countries as of the 1981 enlargement are to be analyzed altogether as a group.

V19 NATION GROUP EU12

NATION GROUP EU12 adds Spain and Portugal to the EU10 countries, new members as of January 1986.

Note: Use of weighting factor W8 (V20) is mandatory.

V20 W8 WEIGHT EU12

This POPULATION SIZE WEIGHT adds Spain and Portugal to the EU10 countries. It adjusts each national sample in proportion to its share in the total population aged 15 and over, of this (historical) subgroup of countries. The post-stratification weighting factors are included. All other samples are excluded from calculation. WEIGHT EU12 must be applied whenever these twelve countries as of the 1986 enlargement are to be analyzed altogether as a group.

V21 NATION GROUP EU12+

NATION GROUP EU12+ equals EU12 but including East Germany after the unification of Germany on October 3, 1990.

Note: Use of weighting factor W9 (V22) is mandatory.

V22

W9 WEIGHT EU12+

This POPULATION SIZE WEIGHT equals WEIGHT EU12 but in addition including East Germany (former German Democratic Republic) after the unification of Germany on October 3, 1990 (Eurobarometer 34). It adjusts each national sample in proportion to its share in the total population aged 15 and over, of this (historical) subgroup of countries. The post-stratification weighting factors are included. All other samples are excluded from calculation. WEIGHT EU12+ must be applied whenever these twelve member countries are to be analyzed altogether as a group including the Eastern part of Germany (new German federal states).

V23

NATION GROUP EU NMS 3

NATION GROUP EU NMS 3 only refers to the three new members as of January 1995: Finland, Sweden and Austria.

Note: Use of weighting factor W10 (V24) is mandatory.

V24

W10 WEIGHT EU NMS 3

This POPULATION SIZE WEIGHT only refers to the three new members as of January 1995: Finland, Sweden and Austria. It adjusts each national sample in proportion to its share in the total population aged 15 and over, of this group of new member countries. The post-stratification weighting factors are included. All other samples are excluded from calculation. WEIGHT EU NMS 3 must be applied whenever these three countries are to be analyzed altogether as a group.

V25

NATION GROUP EU15

NATION GROUP EU15 adds Austria, Finland and Sweden to the EURO 12+ countries, new members as of January 1995.

Note: Use of weighting factor W11 (V26) is mandatory.

V26

W11 WEIGHT EU15

This POPULATION SIZE WEIGHT adds Austria, Finland and Sweden to the EU12+ countries. It adjusts each national sample in proportion to its share in the total population aged 15 and over, of this (historical) subgroup of countries. The post-stratification weighting factors are included. All other samples are excluded

from calculation. WEIGHT EU15 must be applied whenever these 15 countries as of the 1995 enlargement are to be analyzed altogether as a group.

V27

NATION GROUP EURO ZONE 2007

NATION GROUP EURO ZONE 2007 separates the group of 12 countries which introduced the EURO as of January 1, 2002 (Belgium, Germany, Greece, Spain, France, Ireland, Italy, Luxembourg, the Netherlands, Austria, Portugal and Finland) plus Slovenia which introduced the EURO as of January 1, 2007.

Note: Use of weighting factor W12 (V28) is mandatory.

V28

W12 WEIGHT EURO ZONE 2007

This POPULATION SIZE WEIGHT separates the group of 12 countries which introduced the EURO as of January 1, 2002 (Belgium, Germany, Greece, Spain, France, Ireland, Italy, Luxembourg, the Netherlands, Austria, Portugal and Finland) plus Slovenia which introduced the EURO as of January 1, 2007. It adjusts each national sample in proportion to its share in the total population aged 15 and over, of this (historical) subgroup of countries. The post-stratification weighting factors are included. All other samples are excluded from calculation. WEIGHT EURO ZONE 2007 must be applied whenever these countries are to be analyzed altogether as a group, e.g., when questions related to the introduction of the common European currency are concerned.

V29

NATION GROUP EU NMS 10

NATION GROUP EU NMS 10 refers to the group of the ten new members of the enlargement in 2004.

Note: Use of weighting factor W13 (V30) is mandatory.

V30

W13 WEIGHT EU NMS 10

This POPULATION SIZE WEIGHT only refers to the group of the ten new members as of the enlargement in 2004: Republic of Cyprus, Czech Republic, Estonia, Hungary, Latvia, Lithuania, Malta, Poland, Slovakia and Slovenia. It adjusts each national sample in proportion to its share in the total population aged 15 and over, of this group of new member countries. The post-stratification weighting factors are included. All other samples are excluded from calculation. WEIGHT EU NMS 10 must be applied

whenever these ten countries are to be analyzed altogether as a group.

V31 NATION GROUP EU25

NATION GROUP EU25 refers to the group of ALL European Union member countries after the enlargement in 2004.

Note: Use of weighting factor W14 (V32) is mandatory.

V32 W14 WEIGHT EU25

This POPULATION SIZE WEIGHT adds Republic of Cyprus, Czech Republic, Estonia, Hungary, Latvia, Lithuania, Malta, Poland, Slovakia and Slovenia to the EU15 countries. It adjusts each national sample in proportion to its share in the total population aged 15 and over, of this (historical) group of countries. The post-stratification weighting factors are included. All other samples are excluded from calculation. WEIGHT EU25 must be applied whenever these 25 countries as of the 2004 enlargement are to be analyzed altogether as a group.

V33 NATION GROUP AC (BG RO)

NATION GROUP AC refers to Bulgaria and Romania.

Note: Use of weighting factor W15 (V34) is mandatory.

V34 W18 WEIGHT AC (BG RO)

This POPULATION SIZE WEIGHT refers to Bulgaria and Romania. It adjusts each national sample in proportion to its share in the total population aged 15 and over, of this group of future EU accession countries. The post-stratification weighting factors are included. All other countries are excluded from calculation. WEIGHT AC must be applied whenever these two countries are to be analyzed altogether as a group.

V35 NATION GROUP EU27

NATION GROUP EU27 includes all 25 member countries after the 2004 enlargement, plus the Accession Countries Bulgaria and Romania.

Note: Use of weighting factor W22 (V36) is mandatory.

V36

W22 WEIGHT EU27

WEIGHT EU27 includes all 25 member countries after the 2004 enlargement, plus the remaining Accession Countries Bulgaria and Romania. This POPULATION SIZE WEIGHT adjusts each national sample in proportion to its share in the total population aged 15 and over, of the European Union plus Bulgaria and Romania. It should be used whenever all 27 countries participating in this wave are to be analysed as a group. The post-stratification weighting factors for all samples/countries are included.

V37

NATION GROUP EU NMS 12

NATION GROUP EU NMS 12 refers to the group of the 12 new members after the enlargement of January 2007 (accession of Bulgaria and Romania).

Note: Use of weighting factor W24 (V38) is mandatory.

V38

W24 WEIGHT EU NMS 12

This POPULATION SIZE WEIGHT refers to the group of the 12 new member countries as of the enlargement in January 2007: Republic of Cyprus, Czech Republic, Estonia, Hungary, Latvia, Lithuania, Malta, Poland, Slovakia, Slovenia, BULGARIA and ROMANIA. It adjusts each national sample in proportion to its share in the total population aged 15 and over, of this group of new member countries. The post-stratification weighting factors are included. All other samples are excluded from calculation. WEIGHT EU NMS 12 must be applied whenever these 12 countries are to be analyzed altogether as a group.

V39

NATION GROUP NON EURO ZONE 2007

NATION GROUP NON EURO ZONE 2007 refers to the group of countries which did not introduce the EURO up to January 1, 2007 (Denmark, United Kingdom, Sweden, Cyprus (Republic), Czech Republic, Estonia, Hungary, Latvia, Lithuania, Malta, Poland, Slovakia, Bulgaria, Romania).

Note: Use of weighting factor W28 (V40) is mandatory.

V40

W28 WEIGHT NON EURO ZONE 2007

This POPULATION SIZE WEIGHT separates the group of countries (Denmark, United Kingdom, Sweden, Cyprus (Republic),

Czech Republic, Estonia, Hungary, Latvia, Lithuania, Malta, Poland, Slovakia, Bulgaria, Romania) which did not introduce the EURO up to January 1, 2007. It adjusts each national sample in proportion to its share in the total population aged 15 and over, of this subgroup of countries. The post-stratification weighting factors are included. All other samples are excluded from calculation. WEIGHT NON EURO ZONE 2007 must be applied whenever these countries are to be analyzed altogether as a group.

V41

WEX WEIGHT EXTRA POPULATION 15+

WEIGHT EXTRA extrapolates the actual universe (population aged 15 or more) for each country (sample), i.e., this weight variable integrates all other available weights, but does not reproduce the number of cases in the data set.

V42-
V59

HOUSEHOLD WEIGHTS

Note: For the parts of the questionnaire for which respondents were asked to answer for their household (Q.D), an additional national weighting criterion was introduced in the marginal and intercellular weighting procedure. In addition to gender, age, region and size of locality all country samples were made representative of the universe description of number of individuals in each household. After that the representative samples of individuals aged 15 and more were converted into household samples. For international weighting (i.e., EU averages), TNS Opinion & Social applied the official household figures as provided by EUROSTAT or national statistic offices.

V42

W31 HH WEIGHT RESULT FROM TARGET - HOUSEHOLD WEIGHT

This POST-STRATIFICATION WEIGHT is based on a comparison for each sample with the respective universe description. British and Northern Irish as well as East and West German samples are weighted separately.

V43

W34 HH WEIGHT UNITED KINGDOM - HOUSEHOLD WEIGHT

This POPULATION SIZE WEIGHT adjusts the British and the Northern Irish (sub-national) samples to their share in the total population aged 15 and over in the United Kingdom. It must be applied whenever the United Kingdom is to be analyzed as a whole. All other samples are excluded from analysis.

- V44 W33 HH WEIGHT GERMANY - HOUSEHOLD WEIGHT
- This POPULATION SIZE WEIGHT adjusts the East and the West German (sub-national) samples to their share in the total population aged 15 and over, of the united Germany. It must be applied whenever Germany is to be analyzed as a whole. All other samples are excluded from analysis.
- V45 W35 HH WEIGHT EU6 - HOUSEHOLD WEIGHT
- This POPULATION SIZE WEIGHT refers to the six EC founder members: France, Belgium, Netherlands, West Germany, Italy, and Luxembourg. It adjusts each national sample in proportion to its share in the total population aged 15 and over, of this (historical) subgroup of countries. All other samples are excluded from calculation. WEIGHT EU6 must be applied whenever these six EC founder countries are to be analyzed altogether as a group.
- V46 W36 HH WEIGHT EU9 - HOUSEHOLD WEIGHT
- This POPULATION SIZE WEIGHT adds Denmark, Ireland, Great Britain and Northern Ireland to the EU6 countries. It adjusts each national sample in proportion to its share in the total population aged 15 and over, of this (historical) subgroup of countries. All other samples are excluded from calculation. WEIGHT EU9 must be applied whenever these nine countries as of the 1973 enlargement are to be analyzed altogether as a group.
- V47 W37 HH WEIGHT EU10 - HOUSEHOLD WEIGHT
- This POPULATION SIZE WEIGHT adds Greece to the EU9 countries. It adjusts each national sample in proportion to its share in the total population aged 15 and over, of this (historical) subgroup of countries. All other samples are excluded from calculation. WEIGHT EU10 must be applied whenever these ten countries as of the 1981 enlargement are to be analyzed altogether as a group.
- V48 W38 HH WEIGHT EU12 - HOUSEHOLD WEIGHT
- This POPULATION SIZE WEIGHT adds Spain and Portugal to the EU10 countries. It adjusts each national sample in proportion to its share in the total population aged 15 and over, of this (historical) subgroup of countries. All other samples are excluded from calculation. WEIGHT EU12 must be applied whenever these

twelve countries as of the 1986 enlargement are to be analyzed altogether as a group.

V49

W39 HH WEIGHT EU12+ - HOUSEHOLD WEIGHT

This POPULATION SIZE WEIGHT equals WEIGHT EU12 but in addition including East Germany (former German Democratic Republic) after the unification of Germany on October 3, 1990 (Eurobarometer 34). It adjusts each national sample in proportion to its share in the total population aged 15 and over, of this (historical) subgroup of countries. All other samples are excluded from calculation. WEIGHT EU12+ must be applied whenever these twelve member countries are to be analyzed altogether as a group including the Eastern part of Germany (new German federal states).

V50

W40 HH WEIGHT EU NMS 3 - HOUSEHOLD WEIGHT

This POPULATION SIZE WEIGHT only refers to the three new members as of January 1995: Finland, Sweden and Austria. It adjusts each national sample in proportion to its share in the total population aged 15 and over, of this group of new member countries. All other samples are excluded from calculation. WEIGHT EU NMS 3 must be applied whenever these three countries are to be analyzed altogether as a group.

V51

W41 HH WEIGHT EU15 - HOUSEHOLD WEIGHT

This POPULATION SIZE WEIGHT adds Austria, Finland and Sweden to the EU12+ countries. It adjusts each national sample in proportion to its share in the total population aged 15 and over, of this (historical) subgroup of countries. All other samples are excluded from calculation. WEIGHT EU15 must be applied whenever these 15 countries as of the 1995 enlargement are to be analyzed altogether as a group.

V52

W42 HH WEIGHT EURO ZONE 2007 - HOUSEHOLD WEIGHT

This POPULATION SIZE WEIGHT separates the group of 12 countries which introduced the EURO as of January 1, 2002 (Belgium, Germany, Greece, Spain, France, Ireland, Italy, Luxembourg, the Netherlands, Austria, Portugal and Finland) plus Slovenia which introduced the EURO as of January 1, 2007. It adjusts each national sample in proportion to its share in the total population aged 15 and over, of this (historical) subgroup of countries. All other samples are excluded from calculation.

WEIGHT EURO ZONE 2007 must be applied whenever these countries are to be analyzed altogether as a group, e.g., when questions related to the introduction of the common European currency are concerned.

V53

W43 HH WEIGHT EU NMS 10 - HOUSEHOLD WEIGHT

This POPULATION SIZE WEIGHT only refers to the group of the ten new members as of the enlargement in 2004: Republic of Cyprus, Czech Republic, Estonia, Hungary, Latvia, Lithuania, Malta, Poland, Slovakia and Slovenia. It adjusts each national sample in proportion to its share in the total population aged 15 and over, of this group of new member countries. All other samples are excluded from calculation. WEIGHT EU NMS 10 must be applied whenever these ten countries are to be analyzed altogether as a group.

V54

W44 HH WEIGHT EU25 - HOUSEHOLD WEIGHT

This POPULATION SIZE WEIGHT adds Republic of Cyprus, Czech Republic, Estonia, Hungary, Latvia, Lithuania, Malta, Poland, Slovakia and Slovenia to the EU15 countries. It adjusts each national sample in proportion to its share in the total population aged 15 and over, of this (historical) group of countries. All other samples are excluded from calculation. WEIGHT EU25 must be applied whenever these 25 countries as of the 2004 enlargement are to be analyzed altogether as a group.

V55

W45 WEIGHT AC (BG RO) - HOUSEHOLD WEIGHT

This POPULATION SIZE WEIGHT refers to Bulgaria and Romania. It adjusts each national sample in proportion to its share in the total population aged 15 and over, of this group of future EU accession countries. All other countries are excluded from calculation. WEIGHT AC must be applied whenever these two countries are to be analyzed altogether as a group.

V56

W52 HH WEIGHT EU27 - HOUSEHOLD WEIGHT

WEIGHT EU27 includes all 25 member countries after the 2004 enlargement, plus the remaining Accession Countries Bulgaria and Romania. This POPULATION SIZE WEIGHT adjusts each national sample in proportion to its share in the total population aged 15 and over, of the European Union plus Bulgaria and Romania. It should be used whenever all 27 countries participating in this wave are to be analysed as a group.

V57

W54 HH WEIGHT EU NMS 12 - HOUSEHOLD WEIGHT

This POPULATION SIZE WEIGHT refers to the group of the 12 new member countries as of the enlargement in January 2007: Republic of Cyprus, Czech Republic, Estonia, Hungary, Latvia, Lithuania, Malta, Poland, Slovakia, Slovenia, Bulgaria and Romania. It adjusts each national sample in proportion to its share in the total population aged 15 and over, of this group of new member countries. All other samples are excluded from calculation. WEIGHT EU NMS 12 must be applied whenever these 12 countries are to be analyzed altogether as a group.

V58

W58 HH WEIGHT NON EURO ZONE 2007 - HOUSEHOLD WEIGHT

This POPULATION SIZE WEIGHT separates the group of countries (Denmark, United Kingdom, Sweden, Cyprus (Republic), Czech Republic, Estonia, Hungary, Latvia, Lithuania, Malta, Poland, Slovakia, Bulgaria, Romania) which did not introduce the EURO up to January 1, 2007. It adjusts each national sample in proportion to its share in the total population aged 15 and over, of this subgroup of countries. All other samples are excluded from calculation. WEIGHT NON EURO ZONE 2007 must be applied whenever these countries are to be analyzed altogether as a group.

V59

WEX HH WEIGHT EXTRA POPULATION 15+ - HOUSEHOLD WEIGHT

WEIGHT EXTRA extrapolates the actual universe (population aged 15 or more) for each country (sample), i.e., this weight variable integrates all other available weights, but does not reproduce the number of cases in the data set.

V60-
V86

Q.1 NATIONALITY

Note: Data for answer category "Other countries" are recorded in V735.

V160

QB3 CORRUPTION EXPECTED: YES - TOTAL

Derivation: This variable summarizes answers V146 to V158.

Note: See V146 to V158 for complete question text.

V169-V170, V195, V213, V308, V310- V320, V370, V460, V463, V465, V476, V574-V575, V579-V580	France: Specified responses for OTHERS are coded in the data set, but no corresponding documentation has been made available by the data producer.
V214-V215, V309, V352	France, Cyprus Republic: Specified responses for OTHERS are coded in the data set, but no corresponding documentation has been made available by the data producer.
V435	Greece: Specified responses for OTHERS are coded in the data set, but no corresponding documentation has been made available by the data producer.
V436	Ireland: Specified responses for OTHERS are coded in the data set, but no corresponding documentation has been made available by the data producer.
V281, V462, V561	France, Ireland: Specified responses for OTHERS are coded in the data set, but no corresponding documentation has been made available by the data producer.
V202	<p data-bbox="483 1108 1390 1136">Q.C6 CIV JUSTICE COM EU PRODUCED YES - TOTAL</p> <p data-bbox="483 1178 1390 1205">Derivation: This variable summarizes answers to V198 to V200.</p> <p data-bbox="483 1247 1390 1274">Note: See V198 to V200 for complete question text.</p>

For more information see V42 to V59.</p>
V230- V237	<p data-bbox="483 1654 1390 1682">Q.D1 TELECOM DEV IN HH</p> <p data-bbox="483 1724 1390 1797">Note: Categories '4' to '9' were summarized in category 4 by the original data producer. Questionnaire category 11 (DK) is coded 5.</p>

V281	Q.D8 INTERNET ACCESS HH: WHICH OTHERS
	Note: Nested question routing: the quoted filter reference (INAP) includes one or more preceding filter (or other) conditions for the exclusion of respondents.
V289- V298	Q.D11 INTERNET BROADBAND
	Note: Nested question routing: the quoted filter reference (INAP) includes one or more preceding filter (or other) conditions for the exclusion of respondents.
V308- V329	Q.D12 NO INTERNET ACCESS: OTHER REASONS
	Note: Nested question routing: the quoted filter reference (INAP) includes one or more preceding filter (or other) conditions for the exclusion of respondents.
V333- V338	Q.D14 COMMUNICTN PACKAGE HH
	Note: 22 cases underrun the minimum number of answers required (all cases from Ireland).
V370	Q.E4B CAP PRIORITIES - WHICH ANY OTHER
	Note: Nested question routing: the quoted filter reference (INAP) includes one or more preceding filter (or other) conditions for the exclusion of respondents.
V371- V386	Q.E4AB Priority in EU agriculture and rural development policy in total
	Derivation: This variable summarizes responses to this item in Q.E4A (V351) and Q.E4B (V353 TO V368).
	Note: See Q.E4A to Q.E4B for complete question text. Variables summarize answers to Q.E4A (V351) and Q.E4B (V353 TO V368), except for category '17' (DK) (V387).
V387	Q.E4AB Priority in EU agriculture and rural development policy in total
	Note: See Q.E4A to Q.E4B for complete question text. Variable repeats answers to category '17' (DK) in Q.E4A (V351), while all other answers to Q.E4A (V351) are summarized with Q.E4B (V353 TO V368) in variables V371 to V386.

- V612 D.1 LEFT-RIGHT PLACEMENT
- Note: Original code "11" recoded to "97". Original code "12" recoded to "98".
- V613 D.1R1 Left - right scale (RECODED)
- Derivation: This variable collapses answers to D.1 into three categories.
- Note: See D.1 for complete question text.
- V614 D.1R2 Left - right scale (RECODED)
- Derivation: This variable collapses answers to D.1 into five categories.
- Note: See D.1 for complete question text.
- V615 D.7 MARITAL STATUS
- Note: Original code "10" recoded to "97".
- V616 D.8 AGE EDUCATION
- Note: Original code "00" recoded to "98". Original code "01" recoded to "97". Original code "98" recoded to "0".
- Please notice that starting with Eurobarometer 67.2 data for SPAIN, PORTUGAL and BULGARIA show noticeable high frequencies for REFUSAL (newly introduced category) and not any response for NO FULL-TIME EDUCATION. This is not plausible if comparing with results from former waves. Data for both categories have probably been collapsed. Inconsistent specifications for residual categories (no full-time education, DK, refusal) in the national field questionnaires over time and across countries support this argument. Relevant data should be analysed with caution.
- V617 D.8R Age when finished full-time education - RECODED
- Note: See D.8 for complete question text.
- Please notice that starting with Eurobarometer 67.2 data for SPAIN, PORTUGAL and BULGARIA show noticeable high frequencies for REFUSAL (newly introduced category) and not

any response for NO FULL-TIME EDUCATION. This is not plausible if comparing with results from former waves. Data for both categories have probably been collapsed. Inconsistent specifications for residual categories (no full-time education, DK, refusal) in the national field questionnaires over time and across countries support this argument. Relevant data should be analysed with caution.

V619 D.11 AGE EXACT

Note: Actual number is coded.

V620 D.11R1 AGE - RECODED IN FOUR GROUPS

Derivation: This variable collapses answers to D.11 into four categories.

Note: See D.11 for complete question text.

V621 D.11R2 AGE - RECODED IN SIX GROUPS

Derivation: This variable collapses answers to D.11 into six categories.

Note: See D.11 for complete question text.

V623 D.15B OCCUPATION OF RESPONDENT - LAST JOB

Note: In accordance with former waves coding results to be (correctly) shifted compared to the questionnaire. All cases in code "0" (NA) from Denmark.

V624 D.25 TYPE OF COMMUNITY

Note: Original code "4" recoded to "8".

V626 D.40AR HOUSEHOLD COMPOSITION: AGED 15+ (RECODED)

Derivation: This variable groups answers to question D.40A/V625.

Note: See V625 for complete question text.

V628 D.40BR HOUSEHOLD COMPOSITION: AGED <10 (RECODED)

Derivation: This variable groups answers to question D.40B/V627.
Note: See V627 for complete question text.

- V630 D.40CR HOUSEHOLD COMPOSITION: AGED 10-14
(RECODED)
- Derivation: This variable groups answers to question D.40C/V629.
- Note: See V629 for complete question text.
- V631 D.40R HOUSEHOLD COMPOSITION: SIZE (A+B+C) RECODED
- Derivation: This variable summarizes V625, V627 and V629.
- Note: See V625, V627 and V629 for complete question text.
- Generated by the Archive in accordance with former surveys.
- V632 D.40 HOUSEHOLD COMPOSITION: SIZE (A+B+C)
- Derivation: This variable groups the summarized variable V631.
- Note: See V625, V627 and V629 for complete question text.
- Generated by the Archive in accordance with former surveys.
- V633 D.41 NATIONAL BACKGROUND: RESPONDENT
- Note: Original code "6" recoded to "7".
- V634 D.42 NATIONAL BACKGROUND: PARENTS
- Note: Original code "6" recoded to "9".
- V653 P.2 Time of the beginning of the interview - RECODED
- Note: Only recoded variable available.
- V654 P.3 Number of minutes the interview lasted
- Note: Actual number is coded.
- V661 P.6_DE (Objective) Size of community: Germany
- Note: For meaningful results this variable needs to be weighted by W3 WEIGHT GERMANY (V12) or be used for West and East Germany separately (select if '4' OR '14' in V6).

- V666 P.6_GB (Objective) Size of community: United Kingdom
- Note: The original variable integrated data for Northern Ireland (codes 1-2, 6) and Great Britain (codes 3-5). The original categories (value label) were corrected after consultation with TNS OPINION & SOCIAL. In order to facilitate the analysis for the United Kingdom as a whole, identical categories have been combined. For Northern Ireland code 3 (“Metropolitan”) has been recoded from code 6 (DK) in accordance with P7 Region I for the United Kingdom (if coded 1 = “Belfast”). In Eurobarometer 62 to 66 “Belfast” is coded as “Urban” together with other communities; former Eurobarometers have different categories for community size in Northern Ireland.
- For meaningful results this variable needs to be weighted by W4 WEIGHT UNITED KINGDOM (V10) or be used for Great Britain and Northern Ireland separately (select if '9' OR '10' in V6).
- V685 P.7_FR Region I
- France (EUROSTAT NUTS II LEVEL) - Regions
- V686 P.7_BE Region I
- Belgium (EUROSTAT NUTS II LEVEL) - Provinces
- V687 P.7_NL Region I
- The Netherlands (EUROSTAT NUTS II LEVEL) - Provinces
- V688 P.7_IT Region I
- Italy (EUROSTAT NUTS II LEVEL - modified) - Regioni
- V689 P.7_LU Region I
- Luxembourg
- V690 P.7_DK Region I
- Denmark (EUROSTAT NUTS II LEVEL)
- V691 P.7_GB Region I
- United Kingdom (for Great Britain eleven NUTS 1 regions and for Northern Ireland five NUTS 3 regions)

Note: For meaningful results this variable needs to be weighted by W4 WEIGHT UNITED KINGDOM (V10) or be used for Great Britain and Northern Ireland separately (select if '9' OR '10' in V6).

V692	P.7_GR Region I Greece (EUROSTAT NUTS II LEVEL) - Peripheries
V693	P.7_ES Region I Spain (EUROSTAT NUTS II LEVEL) - Comunidades Autonomas
V694	P.7_PT Region I Portugal (EUROSTAT NUTS II LEVEL) - Comissoes de Coordinacao Regional, Regioes Autonomas
V695	P.7_FI Region I Finland (EUROSTAT NUTS III LEVEL) - Maakunnat
V696	P.7_SE Region I Sweden (EUROSTAT NUTS II LEVEL) - Riksområden
V697	P.7_AT Region I Austria (EUROSTAT NUTS II LEVEL) - Bundesländer

Finland (EUROSTAT NUTS II LEVEL) - Suuralueet
- V721 P.7R_AT Region II
Austria (EUROSTAT NUTS I LEVEL) - Groups of Bundesländer
- V722 P.7R_HU Region II
Hungary (EUROSTAT NUTS I LEVEL) - Groups of Regions
Note: Generated by the Archive in accordance with NUTS 1.
- V723 P.7R_PL Region II
Poland (EUROSTAT NUTS I LEVEL) - Groups of Voivodeships
- V724 P.7R_BG Region II
Bulgaria (EUROSTAT NUTS II LEVEL) - Groups of Oblasti
Note: Generated by the Archive in accordance with NUTS 2.
- V725 P.7R_RO Region II
Romania (EUROSTAT NUTS I LEVEL) - Groups of Regions
Note: Generated by the Archive in accordance with NUTS 1.
- V727 P.13_LU Language of questionnaire: Luxembourg

Note: Starting with Eurobarometer 62 and with the change of fieldwork responsibility to TNS, the relation between average frequencies for language categories "French" and "Luxembourgish" appears to be inversed. The majority of respondents in Luxembourg are now coded as being interviewed in French and not in Luxembourgish as former Eurobarometer surveys indicate. It could not be ascertained if TNS (intermittently) changed the fieldwork strategy regarding languages. Starting with Eurobarometer 69 the former proportion is recovered, again representing the actual proportion between Luxembourgish and French as mother languages in Luxembourg. This is probably also true for Eurobarometer 68.2 where the labelling in the data set (value label) is shifted compared to the field questionnaire.

V734

Original Interviewer Identification Number

This is the original interviewer identification number as supplied by TNS OPINION & SOCIAL. The first two digits identify the country of interview (01: Belgium; 02: Denmark; 03: West Germany; 04: East Germany; 05: Greece; 06: Spain; 07: Finland; 08: France; 09: Ireland; 10: Italy; 11: Luxembourg; 12: Netherlands; 13: Austria; 14: Portugal; 15: Sweden; 16: Great Britain; 17: Northern Ireland; 18: Cyprus (Republic); 19: Czech Republic; 20: Estonia; 21: Hungary; 22: Latvia; 23: Lithuania; 24: Malta; 25: Poland; 26: Slovakia; 27: Slovenia; 28: Bulgaria; 29: Romania). The remaining digits contain the country-specific interviewer ID numbers.

Note: Actual number is coded.

No data for France.

999 Inap. not any others in Q.F2 (not coded 11 in V475)

in France (FR):

- 1 Item not specified
- 7 Item not specified
- 8 Item not specified
- 11 Man in nature, interactions
- 12 Life, nature

in Belgium (BE):

- 13 The non-respect of people
- 14 Nuclear power plants
- 15 Given too much money without improving the problem
- 16 Air
- 17 Good nutritional value
- 18 Air pollution, water shortage
- 19 My life

in Netherlands (NL):

- 1 The future
- 2 Emission of carbon dioxide
- 3 That we're being fooled
- 4 Government should take its responsibility towards polluting companies
- 5 Healthy living environment
- 6 Climate change
- 7 Pollution
- 8 The immediate environment
- 9 Separate waste
- 10 Health
- 11 That the environment is costing people money
- 12 Greenpeace actions
- 13 Don't trust it
- 14 Depends on conversation partner
- 15 Complaining/nagging
- 16 Air pollution

- 17 Intimidation
- 18 Soil pollution
- 19 Water pollution
- 20 Overpopulation
- 21 Ozone
- 22 Clean air
- 23 Food
- 24 Your own contribution

in Germany (DE):

- 1 Waste
- 2 It is a sacrilege on environment if you produce fuel out of things that are originally meant to be food (such as cereals)

in Italy (IT):

- 99 Animal and vegetable species which are dying

in Luxembourg (LU):

- 1 Air pollution (industrie, cars)
- 2 Sustainable developmenT
- 3 To much traffic
- 4 To pay more and more taxes
- 5 Garbage in the nature
- 6 Problematic with the garbage

in Denmark (DK):

- 11 Others

in Ireland (IE):

- 1 Litter
- 2 Dumping of waste
- 3 Air pollution / sprays / aerosols
- 4 Renewable energy
- 5 Protection of wild life
- 6 Global warming
- 7 Water/water pollution
- 8 Land pollution
- 9 Ozone layer

in United Kingdom (GB):

- 1 Recycling
- 2 The ozone

in Greece (GR):

- 1 Environmental destruction
- 2 Ecologist movement

- 3 Unconcern for the environment
- 4 Planet earth in danger
- 5 Health problems related to environmental pollution

in Spain (ES):

- 1 Pollution in towns and cities
- 2 Green and pleasant landscapes
- 3 Earthquakes, floods and other natural disasters
- 5 Climate change
- 13 In Fertiberia
- 14 In the future
- 15 Everything is bad
- 16 Everything

in Portugal (PT):

- 1 Recycling
- 2 Hole in the Ozone layer
- 3 Health

in Finland (FI):

- 1 Forests
- 2 Watervays
- 3 Cleanliness of environment
- 4 Recycling
- 5 The Earth
- 6 Immediate surroundings
- 7 Climate change
- 8 Building licence

in Sweden (SE):

- 1 Environmental criminals in Africa

in Austria (AT):

- 1 All of them taken together
- 2 Planet earth

in Cyprus Republic (CY):

- 1 Water
- 2 Must have a clean environment
- 3 My village, my fields that we used to cultivate

in Czech Republic (CZ):

- 1 Factories
- 2 Nature will help itself

in Estonia (EE):

- 1 Pollution in general
- 2 Producing waste, garbage; throwing the garbage down
- 3 Everything around us
- 4 Air pollution
- 5 Industrial waste
- 6 Planet earth
- 7 Rural life
- 8 Cutting down forests
- 9 Pointless wasting of money
- 10 Polluted water
- 11 Excessive waste everywhere
- 12 Forest

in Hungary (HU):

- 1 Towns/ green areas
- 2 Precincts
- 3 Environmental pollution
- 4 The foods are not healthy
- 5 Air
- 6 Drinking water
- 7 Slashings
- 8 Cleanliness
- 9 Chemical/ spraying

in Latvia (LV):

- 1 Fresh air
- 2 Amount of the waste in the environment
- 3 Taking care of the land (soil)
- 4 Ecology of the whole planet
- 5 Nothing
- 6 Runabout animals
- 7 Bad quality of the water
- 8 Pollution in the atmosphere
- 9 Separating of the waste
- 10 Isn't interested in that, doesn't know, doesn't have any information

in Lithuania (LT):

- 1 Scrapheap, dump

in Malta (MT):

- 1 Clean environment in villages and towns
- 2 Dirty streets
- 3 Vandalism
- 5 High number of construction sites
- 6 Cleaner environment better health

in Poland (PL):
13 Healthy food

in Slovakia (SK):
13 Everything around us

in Slovenia (SI):
1 A problem of public dumping ground
2 The price of our local communal service (that takes care of garbage in the city)
3 Flowers, pleasant surroundings around the house
4 Home and garden
5 It will be the problem in the future
6 It's nicer to live outside the cities
7 I think of everything

in Bulgaria (BG):
1 Unpunished and high-handed hewing of forests
2 Indiscriminately and illegal construction activities
3 The ozone gap
4 About the air and the water

in Romania (RO):
1 Citizens health

in France (FR):

1 Item not specified

3 Item not specified

5 Item not specified

10 Fair trade

11 Nature cleaning with children

12 Speed on the road

in Belgium (BE):

12 Cultivate my vegetables myself

13 Convert the car to ride with gas

in Netherlands (NL):

1 Do not own a car

2 Low-energy light bulbs

in Germany (DE):

1 I did not buy the car

in Luxembourg (LU):

1 Eco-friendly radiotar system

in Denmark (DK):

10 Others

in Ireland (IE):

1 Not specified

in United Kingdom (GB):

1 Stopped smoking

2 Planted trees

in Spain (ES):

- 3 Separated most of your waste for recycling
- 12 We have to take care more
- 13 The bigger conaminators should act

in Portugal (PT):

- 1 Driving slowly

in Finland (FI):

- 1 Environmental friendly car
- 2 Do these things anyway
- 3 Forestry

in Sweden (SE):

- 1 Cancelled the telephone dictionary
- 2 Bought fewer bottle with water

in Cyprus Republic (CY):

- 2 Planting of trees

in Czech Republic (CZ):

- 1 Used LPG for his car
- 2 Took care of water animals (he is a fisher)

in Hungary (HU):

- 1 Grooming the environment
- 2 Composting the plant waste
- 3 Adequate green card
- 4 Cap gathering for charity scope
- 5 Preparation of bio food

in Latvia (LV):

- 1 Used organic fertilizers for the garden
- 2 Collecting garbage, besoming the streets

in Lithuania (LT):

- 1 Used to clear the grove, strand
- 2 Feeding stray cats

in Poland (PL):

- 12 Cultivated plants
- 13 Feeding animals
- 14 Burned the garbage in the tiled stove
- 15 All of them

in Slovakia (SK):

- 1 Cleaning of the local brook
- 2 Youth enlightenment
- 3 He didn't burn his garden waste

in Slovenia (SI):

- 1 I was using chemical detergents less
- 2 I bought a car that spends less fuel
- 3 I was cleaning environment in whole Vipava valley

in Bulgaria (BG):

- 1 Participation in campaign for collecting scrap
- 2 Participation in campaign for cleaning up the neighborhood area

Let's now talk about civil justice that refers to issues such as family law and contract law. The objective of the European area of civil justice is to ensure that citizens and companies in one Member State can exercise their rights in another Member State, if there is a dispute that crosses national borders. We are not talking here about criminal justice.

ASK ALL

Nous allons maintenant parler de la justice civile qui inclut notamment les questions du droit de la famille et du droit des contrats. L'objectif d'un espace européen de justice civile est de garantir que les citoyens et les sociétés d'un Etat membre puissent exercer leurs droits dans un autre Etat membre en cas de conflit transfrontalier. Il n'est pas question ici de justice pénale.

A TOUS

EUROBAROMETER 68.2 TECHNICAL SPECIFICATIONS

Between the 9th of November and the 14th of December 2007 (DK: 16 January 2008), TNS Opinion & Social, a consortium created between Taylor Nelson Sofres and EOS Gallup Europe, carried out wave 68.2 of the EUROBAROMETER, on request of the EUROPEAN COMMISSION, Directorate-General for Communication, "Research and Political Analysis".

The EUROBAROMETER 68.2 covers the population of the respective nationalities of the European Union Member States, resident in each of the Member States and aged 15 years and over. The basic sample design applied in all states is a multi-stage, random (probability) one. In each country, a number of sampling points was drawn with probability proportional to population size (for a total coverage of the country) and to population density.

In order to do so, the sampling points were drawn systematically from each of the "administrative regional units", after stratification by individual unit and type of area. They thus represent the whole territory of the countries surveyed according to the EUROSTAT NUTS II (or equivalent) and according to the distribution of the resident population of the respective nationalities in terms of metropolitan, urban and rural areas. In each of the selected sampling points, a starting address was drawn, at random. Further addresses (every Nth address) were selected by standard "random route" procedures, from the initial address. In each household, the respondent was drawn, at random (following the "closest birthday rule"). All interviews were conducted face-to-face in people's homes and in the appropriate national language. As far as the data capture is concerned, CAPI (*Computer Assisted Personal Interview*) was used in those countries where this technique was available.

UK	United Kingdom	TNS UK	1.305	09/11/2007 04/12/2007	47.685.578
TOTAL			26.730	09/11/2007 14/12/2007	392.942.290

For each country a comparison between the sample and the universe was carried out. The Universe description was derived from Eurostat population data or from national statistics offices. For all countries surveyed, a national weighting procedure, using marginal and intercellular weighting, was carried out based on this Universe description. In all countries, gender, age, region and size of locality were introduced in the iteration procedure. For international weighting (i.e. EU averages), TNS Opinion & Social applies the official population figures as provided by EUROSTAT or national statistic offices. The total population figures for input in this post-weighting procedure are listed above.

For the parts of the questionnaire for which respondents were asked to answer for their household, an additional national weighting criteria was introduced in the marginal and intercellular weighting procedure. In addition to gender, age, region and size of locality all country samples were made representative of the Universe description of number of individuals in each household. After that the representative samples of individuals aged 15 and more were converted into household samples. For international weighting (i.e. EU averages), TNS Opinion & Social applied the official household figures as provided by EUROSTAT or national statistic offices. The total household figures for input in this post-weighting procedure are listed above.

Readers are reminded that survey results are estimations, the accuracy of which, everything being equal, rests upon the sample size and upon the observed percentage. With samples of about 1,000 interviews, the real percentages vary within the following confidence limits:

Observed percentages	10% or 90%	20% or 80%	30% or 70%	40% or 60%	50%
Confidence limits	± 1.9 points	± 2.5 points	± 2.7 points	± 3.0 points	± 3.1 points

EUROBAROMETRE 68.2 SPECIFICATIONS TECHNIQUES

Entre le 9 novembre et le 14 décembre 2007 (DK : 16 janvier 2008), TNS Opinion & Social, un consortium créé entre Taylor Nelson Sofres et EOS Gallup Europe, a réalisé la vague 68.1 de l'EUROBAROMETRE à la demande de la COMMISSION EUROPEENNE, Direction générale de la Communication, unité « Recherche et Analyse Politique ».

L'EUROBAROMETRE 68.2 couvre la population de 15 ans et plus - ayant la nationalité d'un des Pays membres de l'Union européenne - et résidant dans un des pays Membres de l'Union européenne. Le principe d'échantillonnage appliqué dans tous les Etats participant à cette étude est une sélection aléatoire (probabiliste) à phases multiples. Dans chaque pays, divers points de chute ont été tirés avec une probabilité proportionnelle à la taille de la population (afin de couvrir la totalité du pays) et à la densité de la population.

A cette fin, ces points de chute ont été tirés systématiquement dans chacune des "unités régionales administratives", après avoir été stratifiés par unité individuelle et par type de région. Ils représentent ainsi l'ensemble du territoire des pays participant à l'étude, selon les EUROSTAT-NUTS II (ou équivalent) et selon la distribution de la population habitant dans le pays en termes de zones métropolitaines, urbaines et rurales. Dans chacun des points de chute sélectionnés, une adresse de départ a été tirée de manière aléatoire. D'autres adresses (chaque Nième adresse) ont ensuite été sélectionnées par une procédure de "random route" à partir de l'adresse initiale. Dans chaque ménage, le répondant a été tiré aléatoirement (suivant la règle du "plus proche anniversaire"). Toutes les interviews ont été réalisées en face à face chez les répondants et dans la langue nationale appropriée. En ce qui concerne la technique de collecte de données, le système CAPI (*Computer Assisted Personal Interview*) a été utilisé dans tous les pays où cela était possible.

SK	Slovaquie	TNS AISA SK	1.055	14/11/2007	30/11/2007	4.316.438
FI	Finlande	TNS Gallup Oy	1.038	16/11/2007	12/12/2007	4.348.676
SE	Suède	TNS GALLUP	1.015	18/11/2007	09/12/2007	7.486.976
UK	Royaume-Uni	TNS UK	1.305	09/11/2007	04/12/2007	47.685.578
TOTAL			26.730	09/11/2007	14/12/2007	392.942.290

Dans chaque pays, l'échantillon a été comparé à l'univers. La description de l'univers se base sur les données de population EUROSTAT ou provenant des Instituts nationaux de Statistique. Pour tous les pays couverts par l'étude, une procédure de pondération nationale a été réalisée (utilisant des pondérations marginales et croisées), sur base de cette description de l'univers. Dans tous les pays le sexe, l'âge, les régions et la taille de l'agglomération ont été introduits dans la procédure d'itération. Pour la pondération internationale (i.e. les moyennes UE), TNS Opinion & Social recourt aux chiffres officiels de population, publiés par EUROSTAT ou les instituts nationaux de Statistique. Les chiffres complets de la population, introduits dans cette procédure de post-pondération, sont indiqués ci-dessus.

Pour les parties du questionnaire qui invitaient les répondants à répondre pour leur ménage, un critère supplémentaire de pondération nationale a été introduit dans la procédure des pondérations marginales et croisées. Outre le sexe, l'âge, les régions et la taille de l'agglomération tous les échantillons pays ont été pondérés pour être représentatifs de l'univers quant au nombre d'individus dans chaque ménage. Ces échantillons représentatifs d'individus âgés de 15 ans et plus ont ensuite été transposés dans des échantillons ménages. Pour la pondération internationale (i.e. les moyennes UE), TNS Opinion & Social a eu recours aux chiffres officiels sur les ménages, publiés par EUROSTAT ou les instituts nationaux de Statistique. Les chiffres complets des ménages, introduits dans cette procédure de post-pondération, sont indiqués ci-dessus.

Il importe de rappeler aux lecteurs que les résultats d'un sondage sont des estimations dont l'exactitude, toutes choses égales par ailleurs, dépend de la taille de l'échantillon et du pourcentage observé. Pour des échantillons d'environ 1.000 interviews, le pourcentage réel oscille dans les intervalles de confiance suivants :

Pourcentages observés	10% ou 90%	20% ou 80%	30% ou 70%	40% ou 60%	50%
Limites de confiance	± 1.9 points	± 2.5 points	± 2.7 points	± 3.0 points	± 3.1 points

SPECIAL EUROBAROMETER N° 293

“E-Communications Household Survey”

TECHNICAL SPECIFICATIONS

Between the 9th of November and the 14th of December 2007 (DK: 16 January 2008), TNS Opinion & Social, a consortium created between Taylor Nelson Sofres and EOS Gallup Europe, carried out wave 68.2 of the EUROBAROMETER, on request of the EUROPEAN COMMISSION, Directorate-General for Communication, “Research and Political Analysis”.

The SPECIAL EUROBAROMETER N°293 is part of wave 68.2 and covers the population of the respective nationalities of the European Union Member States, resident in each of the Member States and aged 15 years and over. The basic sample design applied in all states is a multi-stage, random (probability) one. In each country, a number of sampling points was drawn with probability proportional to population size (for a total coverage of the country) and to population density.

In order to do so, the sampling points were drawn systematically from each of the “administrative regional units”, after stratification by individual unit and type of area. They thus represent the whole territory of the countries surveyed according to the EUROSTAT NUTS II (or equivalent) and according to the distribution of the resident population of the respective nationalities in terms of metropolitan, urban and rural areas. In each of the selected sampling points, a starting address was drawn, at random. Further addresses (every Nth address) were selected by standard “random route” procedures, from the initial address. In each household, the respondent was drawn, at random (following the “closest birthday rule”). All interviews were conducted face-to-face in people’s homes and in the appropriate national language. As far as the data capture is concerned, CAPI (*Computer Assisted Personal Interview*) was used in those countries where this technique was available.

TOTAL			26.730	09/11/2007 14/12/2007	392.942.290	191.549.435

For each country a comparison between the sample and the universe was carried out. The Universe description was derived from Eurostat population data or from national statistics offices. For all countries surveyed, a national weighting procedure, using marginal and intercellular weighting, was carried out based on this Universe description. In all countries, gender, age, region and size of locality were introduced in the iteration procedure. For international weighting (i.e. EU averages), TNS Opinion & Social applies the official population figures as provided by EUROSTAT or national statistic offices. The total population figures for input in this post-weighting procedure are listed above.

For the parts of the questionnaire for which respondents were asked to answer for their household, an additional national weighting criteria was introduced in the marginal and intercellular weighting procedure. In addition to gender, age, region and size of locality all country samples were made representative of the Universe description of number of individuals in each household. After that the representative samples of individuals aged 15 and more were converted into household samples. For international weighting (i.e. EU averages), TNS Opinion & Social applied the official household figures as provided by EUROSTAT or national statistic offices. The total household figures for input in this post-weighting procedure are listed above.

Readers are reminded that survey results are estimations, the accuracy of which, everything being equal, rests upon the sample size and upon the observed percentage. With samples of about 1,000 interviews, the real percentages vary within the following confidence limits:

Observed percentages	10% or 90%	20% or 80%	30% or 70%	40% or 60%	50%
Confidence limits	± 1.9 points	± 2.5 points	± 2.7 points	± 3.0 points	± 3.1 points

EUROBAROMETRE SPECIAL N° 293

« Enquête sur les communications électroniques auprès des ménages »

SPECIFICATIONS TECHNIQUES

Entre le 9 novembre et le 14 décembre 2007 (DK : 16 janvier 2008), TNS Opinion & Social, un consortium créé entre Taylor Nelson Sofres et EOS Gallup Europe, a réalisé la vague 68.1 de l'EUROBAROMETRE à la demande de la COMMISSION EUROPEENNE, Direction générale de la Communication, unité « Recherche et Analyse Politique ».

L'EUROBAROMETRE SPECIAL N°293 fait partie de la vague 68.2 et couvre la population de 15 ans et plus - ayant la nationalité d'un des Pays membres de l'Union européenne - et résidant dans un des pays Membres de l'Union européenne. Le principe d'échantillonnage appliqué dans tous les Etats participant à cette étude est une sélection aléatoire (probabiliste) à phases multiples. Dans chaque pays, divers points de chute ont été tirés avec une probabilité proportionnelle à la taille de la population (afin de couvrir la totalité du pays) et à la densité de la population.

A cette fin, ces points de chute ont été tirés systématiquement dans chacune des "unités régionales administratives", après avoir été stratifiés par unité individuelle et par type de région. Ils représentent ainsi l'ensemble du territoire des pays participant à l'étude, selon les EUROSTAT-NUTS II (ou équivalent) et selon la distribution de la population habitant dans le pays en termes de zones métropolitaines, urbaines et rurales. Dans chacun des points de chute sélectionnés, une adresse de départ a été tirée de manière aléatoire. D'autres adresses (chaque Nième adresse) ont ensuite été sélectionnées par une procédure de "random route" à partir de l'adresse initiale. Dans chaque ménage, le répondant a été tiré aléatoirement (suivant la règle du "plus proche anniversaire"). Toutes les interviews ont été réalisées en face à face chez les répondants et dans la langue nationale appropriée. En ce qui concerne la technique de collecte de données, le système CAPI (*Computer Assisted Personal Interview*) a été utilisé dans tous les pays où cela était possible.
