REQUEST FOR INFORMATION ON USE OF ICPSR RESOURCES

To provide funding agencies with essential information about use of archival resources and to facilitate the exchange of information about ICPSR participants' research activities, users of ICPSR data are requested to send to ICPSR bibliographic citations for each completed manuscript or thesis abstract. Please indicate in a cover letter which data were used.

DATA DISCLAIMER

The original collector of the data, ICPSR, and the relevant funding agency bear no responsibility for uses of this collection or for interpretations or inferences based upon such uses.

SUMMARY

This data collection represents a process and outcome evaluation of the Office Technology Training program at the Rio Consummes Correctional Center (RCCC) in Sacramento County. RCCC is a county jail for prisoners sentenced up to one year in custody. The Office Technology Training program, one of several training programs for inmates at RCCC, was designed to familiarize students with the use of computers in an office or business setting and to provide specific instruction in several types of common office software, including word processing and desktop publishing. The purpose of the evaluation research was (1) to refine the process of determining what types of training should be funded and (2) to establish research-based evaluation protocols for local jail inmate training programs. Data were collected on participants in the Office Technology Training class, on a control group that matched the participants in terms of demographic characteristics, and on a smaller group of nonparticipants who had signed up for the training program but did not participate. Part 1, Treatment and Control Group Data, contains administrative and survey data on both the trainees and the control group, while Part 2, Nonparticipant Data, includes administrative and survey data on the inmates who registered for the training but did not participate in the program. The survey consisted of an evaluation form filled out by inmates who participated in the training at RCCC, indicating their prior experience with computers and software, evaluating the training they received, and assessing whether the new skills would be helpful in securing employment upon their release. Administrative records on all respondents (trainees, control, and nonparticipants) were collected from four sources: a supplemental form on inmates' employment, a probation report that provided personal and criminal histories, a risk assessment form, and a follow-up form completed by the probation officer within one week of the six-month anniversary of the inmate's release from RCCC. Variables from the supplemental form included employment type and wages. The probation report covered employment, education, military history, marital status, substance abuse, domestic violence, gang behavior, psychiatric history, child abuse history, and criminal histories as juveniles and adults. Data on attitude, alcohol and drug problems, number of felony convictions, probation periods and violations, types of offenses, and history of institutionalization were taken from the risk assessment form. The follow-up form gathered information on release, disciplinary actions at RCCC, opinions about the Office Technology Training program, substance abuse, new arrests and convictions, gang behavior, job training, employment type, hourly wage, job satisfaction, and use of computers on the job. Additional administrative records data on trainees and nonparticipants were gathered from the class registration form, including gender, education, birth date, ethnicity, language

spoken, occupation, Test of Adult Basic Education (TABE) scores, and class assignments. Other data on trainees came from an evaluation form filled out by the students' instructor upon their completion of the Office Technology class. It provided information on the behavior, attitude, and skills of the students.

GENERAL STUDY OVERVIEW

STUDY IDENTIFICATION

EVALUATION OF A LOCAL JAIL TRAINING PROGRAM IN SACRAMENTO COUNTY,
CALIFORNIA, 1994-1995

KEY WORDS

jails, program evaluation

PURPOSE OF THE STUDY

In October 1993, the California Board of Corrections and the federal National Institute of Justice (NIJ) entered into a cooperative agreement under NIJ's "State Evaluation Capacity Building Program" initiative. Under this initiative, the Board of Corrections proposed to conduct process and outcome evaluations of jail inmate training programs. The proposal resulted from the Board of Correction's newly-acquired responsibility to disseminate federal Perkins Act funds to local jurisdictions in California. The Perkins Act was established to fund local jail inmate training operations. The purpose of the evaluation research was (1) to refine the process of determining what types of training should be funded and (2) to establish research-based evaluation protocols for local jail inmate training programs. Researchers chose to evaluate the Office Technology Training program at the Rio Consummes Correctional Center (RCCC) in Sacramento County. Researchers sought to answer the following questions: (1) To what extent do inmates who achieve a certificate of completion in at least one component of Office Technology Training differ in their institutional adjustment and post-release behavior from inmates who choose no training? (2) Does the training group achieve better results than the control group in the post-release setting with respect to institutional adjustment, employment, and legal behavior?

METHODS

STUDY DESIGN

This project was designed as a process and outcome evaluation of job training programs for jail inmates in California. The first step was to decide which programs to evaluate. At the time the project began, the California Board of Corrections had funded three training programs. After an initial assessment of these programs, two of the three were disqualified for evaluation because: (1) the goals of the training program were not specifically stated, (2) class attendance was not recorded, (3) there was no tracking system for the inmates participating in the training, which inhibited the ability to monitor post-release status, and (4) it was difficult to obtain a reasonable control group. The result of the initial assessment was that the Rio Consummes Correctional Center (RCCC), run by the Sacramento County Sheriff's Department, was the only feasible evaluation site. RCCC is a county jail for prisoners sentenced up to one year in custody. The training program at RCCC was operated by the Elk Grove Unified School District. While RCCC had several training programs, the one chosen for evaluation was the Office Technology Training program. This program was designed to familiarize students with the use of computers in an office or business setting and to provide specific instruction in several types of common office software, including word processing and desktop publishing. The program evaluation was conducted using administrative records data and a survey of program participants. Inmates who participated in the training at RCCC were asked to fill out an evaluation form indicating their prior experience with computers and software, evaluating the training they received, and assessing whether the new skills would be helpful in securing employment upon their release. Data were collected from participants of the Office Technology Training class, a control group that matched the participants in terms of demographic characteristics, and a smaller group of nonparticipants who had signed up for the training program but did not participate. Part 1, Treatment and Control Group Data, contains administrative and survey data on both the trainees and the control group, while Part 2, Nonparticipant Data, includes administrative and survey data on the inmates who registered for the training but did not participate in the program. Administrative records on all inmates (trainees, control, and nonparticipants) were collected from a supplemental form on inmates' employment, a probation report that provided personal and criminal histories, a risk assessment form, and a follow-up form completed by the probation officer within one week of the six-month anniversary of the inmate's release from RCCC. Additional administrative records data on trainees and nonparticipants were gathered from the class registration form, while other data on trainees came from an evaluation form completed by

the students' instructor upon completion of the Office Technology class.

SOURCES OF INFORMATION

Data were collected from a survey administered to program participants and from several forms, including the class registration form, a supplemental form related to inmates' employment, a student evaluation form completed by the instructor of the Office Technology class, a probation report that provided personal and criminal histories, a risk assessment form, and a follow-up form completed by the probation officer within one week of the six-month anniversary of the inmate's release from RCCC.

SAMPLE

For inmates to be considered for possible participation in the research, they had to: (1) be classified in the minimum security housing unit in the facility, (2) achieve a minimum score on a literacy test called the Test of Adult Basic Education (TABE), (3) be sentenced for a long enough period of time to complete an Office Technology Training module, and (4) be able to be easily followed up after their release from the Rio Consummes Correctional Center (RCCC). In addition, the treatment group subjects had to sign up for, and be accepted into, the Office Technology Training program, and had to successfully complete at least one Office Technology Training module. The control group subjects had to sign up for no training of any kind at RCCC and be matched to the treatment group in terms of gender, risk assessment score, and employment history. Since the number of inmates interested in and eligible for the training did not exceed the number of training slots, the control group could not be a random sample of inmates who expressed interest in and qualified for entrance into the Office Technology Training program.

RESPONSE RATES

Not applicable.

DATE(S) OF DATA COLLECTION

July 1, 1994-July 1, 1995

SUMMARY OF CONTENTS

DESCRIPTION OF VARIABLES

Variables from the class registration form included gender, education, birth date, ethnicity, language spoken, occupation, Test of Adult Basic Education (TABE) scores, and class assignments. The instructor's evaluation form provided information on the behavior, attitude, and skills of the students. Variables from the supplemental form included employment type and wages. The study evaluation form gathered information on previous computer training and students' evaluations of the Office Technology class. The probation report covered employment, education, military history, marital status, substance abuse, domestic violence, gang behavior, psychiatric history, child abuse history, and criminal histories as juveniles and adults. Data on attitude, alcohol and drug problems, number of felony convictions, probation periods and violations, types of offenses, and history of institutionalization were taken from the risk assessment form. The follow-up form gathered information on release, disciplinary actions at RCCC, opinions about the Office Technology Training program, substance abuse, new arrests and convictions, gang behavior, job training, employment type, hourly wage, job satisfaction, and use of computers on the job.

PRESENCE OF COMMON SCALES

Several Likert-type scales were used, as well as the Test for Adult Basic Education (TABE).

UNIT OF OBSERVATION

Individuals.

EXTENT OF PROCESSING

The hardcopy data collection instruments were converted to a Portable Document Format (PDF) file, and the data were reformatted by ICPSR. The principal investigator standardized missing data codes. ICPSR produced a codebook and user guide, generated SAS and SPSS data definition statements for this collection, and created sequential record identifiers for each file.

EXTENT OF COLLECTION

This data collection consists of two data files plus a user guide, codebook, and data collection instruments in a PDF file, and SAS and SPSS data definition statements.

DATA COLLECTION NOTES

The user guide, codebook, and data collection instruments are provided as a Portable Document Format (PDF) file. The PDF file format was developed by Adobe Systems Incorporated and can be accessed using PDF reader software, such as the Adobe Acrobat Reader. Information on how to obtain a copy of the Acrobat Reader is provided through the ICPSR Website on the Internet.

RELATED PUBLICATION

Kohls, John, and Douglas A. Holien. "Evaluation of Jail Training Programs" (Final Report). Washington, DC: United States Department of Justice. National Institute of Justice, 1996.

FINAL REPORTS AND OTHER PUBLICATIONS

The National Criminal Justice Reference Service (NCJRS) was established in 1972 by the National Institute of Justice (NIJ), of the U.S. Department of Justice, to provide research findings to criminal justice professionals and researchers. NCJRS operates specialized clearinghouses that are staffed by information specialists who supply a range of reference, referral, and distribution services. Final reports and other publications describing research conducted on a variety of criminal justice topics are available. Publications can be obtained from NCJRS at NIJ/NCJRS, Box 6000, Rockville, MD, 20849-6000, 800-851-3420 or 301-519-5500. TTY Service for the Hearing Impaired is 877-712-9279 (toll-free) or 301-947-8374 (local). The URL for the NCJRS homepage is:

<http://www.ncjrs.org>

DATA RESOURCES PROGRAM ON THE INTERNET

The National Institute of Justice Data Resources Program (DRP) makes datasets from NIJ-funded research and evaluation projects available to the research community and sponsors research and training activities devoted to secondary data analysis. Datasets are archived by the National Archive of Criminal Justice Data (NACJD) at the Inter-university Consortium for Political and Social Research (ICPSR) at the University of Michigan.

The NACJD maintains a World Wide Web site with instructions for transferring files and sending messages. Criminal justice data funded by the Department of Justice are available via the Internet at this site at no charge to the user. NACJD may be contacted at NACJD/ICPSR, P.O. Box 1248, Ann Arbor, MI, 48106-1248, 800-999-0960 or 734-998-9825. The URL for the NACJD homepage is:

<http://www.icpsr.umich.edu/NACJD>

ICPSR CODEBOOK NOTES

1. Users should be aware that most variables in each of the data files contain a large proportion of missing data.
2. For numeric variables, ICPSR recoded system missing to 9-fill and labeled them "Unknown."
3. ICPSR created a sequential record identifier, called ID, for each of the data files.
4. ICPSR was unable to verify variable and value labels for some variables. Variable missing variable labels are labeled "UNDOCUMENTED VARIABLE." ICPSR did not label undocumented codes and users should be aware of the possibility that some values may not be valid.
5. To protect respondent confidentiality, certain identifying variables were recoded by ICPSR to 8-series and labeled "Blanked."

EMPLOYMENT INFORMATION

CJIS X-REF#: _____

Case Name:

Last : _____
First : _____
Middle: : _____

DOB (YY/MM/DD): ____ / ____ / ____

Gender: Male
 Female

Was the inmate employed at the time of the current offense?
 No
 Yes

If "yes," answer the following:

Full Time
 Part Time

Hourly Income: \$ _____

Employment Type:

Unskilled labor
 Non-Office Skilled Labor
 Office Work Related to Office Tech. Training
 Office Professional
 Office Other (e.g., mail room)
 Other (*specify*): _____

Is the inmate returning to this job upon release?
 No
 Yes

Upon release, will the inmate have the use of a car to go to work?
 No
 Yes

OFFICE TECHNOLOGY

Student Evaluation

Name of Student: _____ XREF: _____

1. Date: ___/___/___

2. Prior to coming to RCCC, I worked in a job which required the use of a computer. Yes _____ No _____

3. Prior to coming to RCCC, I worked in a job where I used word processing or desktop publishing computer software.

Yes _____ No _____

4. Rate your computer skills before taking the Office Technology class. Use this 10-point scale. Circle one number.

<i>No skills</i>	1	2	3	4	5	6	7	8	9	<i>Very highly skilled</i>

5. Rate your computer skills after taking the Office Technology class. Use this 10-point scale. Circle one number.

<i>No skills</i>	1	2	3	4	5	6	7	8	9	<i>Very highly skilled</i>
