Information about Copyrighted Content

Some instruments administered as part of this study may contain in whole or substantially in part contents from copyrighted instruments. Reproductions of the instruments are provided as documentation for the analysis of the data associated with this collection. Restrictions on "fair use" apply to all copyrighted content. More information about the reproduction of copyrighted works by educators and librarians is available from the United States Copyright Office.

NOTICE

WARNING CONCERNING COPYRIGHT RESTRICTIONS

The copyright law of the United States (Title 17, United States Code) governs the making of photocopies or other reproductions of copyrighted material. Under certain conditions specified in the law, libraries and archives are authorized to furnish a photocopy or other reproduction. One of these specified conditions is that the photocopy or reproduction is not to be "used for any purpose other than private study, scholarship, or research." If a user makes a request for, or later uses, a photocopy or reproduction for purposes in excess of "fair use," that user may be liable for copyright infringement.

ICPSR Processing Notes

1. The data are restricted from general dissemination. Users interested in obtaining these data must complete a Restricted Data Use Agreement form and specify the reasons for the request. A copy of the Restricted Data Use Agreement form can be requested by calling 800-999-0960. Researchers can also download this form as a Portable Document Format (PDF) file from the download page associated with this dataset.

Completed forms should be returned to: Director, National Archive of Criminal Justice Data, Inter-university Consortium for Political and Social Research, Institute for Social Research, P.O. Box 1248, University of Michigan, Ann Arbor, MI 48106-1248, or by fax: 734-647-8200.

2. ICPSR recoded blanks in numeric variables to -9 and labeled them Blank. All declared missing codes other than -9 were assigned by the principal investigators in the original data file.

3. Users should be aware that this data collection may contain undocumented codes. These codes were not labeled by the principal investigator nor were they labeled by ICPSR.

4. The variable ID_NUM (UNIQUE ID NUMBER CREATED BY ICPSR) was added to each data file by ICPSR.

5. ICPSR repeated variable names as variable labels for the variables ELEMENT and SITE in Parts 1, 2, 3, 4, 5, and 6, the variable GUILT1_F in Part 14, and the variable PROSE_M1 in Part 18.

6. Numerous variables in the data files contain values of -2. Where there is no value label for this value, the principal investigators indicated this may designate missing data. These values were left as they were in the original data files.

7. All JOD data submitted for archival purposes was stripped of identifying information about the defendants and their victims. Dates included with the submission were randomly but uniformly modified to protect the anonymity of defendants, victims, cases, and outcomes.

8. The variables U_DOB_OF (OFFENDER DATE OF BIRTH (U-CIFS/OB)) and U_DOB_VI (VICTIM DATE OF BIRTH (U-CIFS/VB)) in Part 7, and the variables OFFENDER (OFFENDER DOB) and VICTIM_Y (VICTIM DOB) in Part 20 were masked by ICPSR. For these variables, users should note that values of "01/01/1900" should be interpreted as "masked". ICPSR retained the original status of the values as to whether the value was valid or missing.

9. The Stata setup files do not include value labels for the variable UOB_Q125 (WHY LESS LIKELY THAT POLICE WOULD BE CALLED? (SPECIFIED) (U-OB-Q125)) in Part 7. The value labels are provided in the codebook.

10. For confidentiality reasons, the following variables in Part 7 contain generic value labels. The data values for these variables were retained.

UOB_Q89A (NAME OF BATTERER INTERVENTION PROGRAM (SPECIFIED) (U-OB-Q89))

UOF_Q56A (WHAT IS THE NAME OF THE BIP OR ANGER MANAGEMENT PROGRAM? (U-OF-Q56A))

11. For confidentiality reasons, the variables OTHER_1 (OTHER SENTENCE CONDITION #1) and OTHER_2 (OTHER SENTENCE CONDITION #2) in Part 20 had specific information masked. This includes information bracketed between "[" and "]". For example, the variable OTHER_1 includes the text "[program]" which masks identifying data.

12. For confidentiality reasons, the variable J_NO (JUSTICE NUMBER) was masked by ICPSR.

13. The following abbreviations and acronyms are used in the data files:

Part 1 - Dorchester, Massachusetts, Batterer Intervention Program Data

BIP = Batterer Intervention Programs

COC = Cases without Contact

CRC = Court Referred Cases

JOD = Judicial Oversight Demonstration

Evaluation of a Demonstration for Enhanced Judicial Oversight of Domestic Violence Cases in Milwaukee, Wisconsin; Washtenaw County, Michigan; and Dorchester, Massachusetts; 1997-2004

Variable Description and Frequencies

Note: Frequencies displayed for the variables are not weighted. They are purely descriptive and may not be representative of the study population. Please review any sampling or weighting information available with the study.

Summary statistics (minimum, maximum, mean, median, and standard deviation) may not be available for every variable in the codebook. Conversely, a listing of frequencies in table format may not be present for every variable in the codebook either. However, all variables in the dataset are present and display sufficient information about each variable. These decisions are made intentionally and are at the discretion of the archive producing this codebook.
