## Information about Copyrighted Content

Some instruments administered as part of this study may contain in whole or substantially in part contents from copyrighted instruments. Reproductions of the instruments are provided as documentation for the analysis of the data associated with this collection. Restrictions on "fair use" apply to all copyrighted content. ### NOTICE

#### WARNING CONCERNING COPYRIGHT RESTRICTIONS

The copyright law of the United States (Title 17, United States Code) governs the making of photocopies or other reproductions of copyrighted material. Under certain conditions specified in the law, libraries and archives are authorized to furnish a photocopy or other reproduction. One of these specified conditions is that the photocopy or reproduction is not to be "used for any purpose other than private study, scholarship, or research." If a user makes a request for, or later uses, a photocopy or reproduction for purposes in excess of "fair use," that user may be liable for copyright infringement.

### ICPSR CODEBOOK NOTES

- 1) The data are restricted from general dissemination. Users interested in obtaining these data must complete a Restricted Data Use Agreement form and specify the reasons for the request. A copy of the Restricted Data Use Agreement form can be requested by calling 800-999-0960. Researchers can also download this form as a Portable Document Format (PDF) file from the download page associated with this dataset.

Completed forms should be returned to: Director, National Archive of Criminal Justice Data, Inter-university Consortium for Political and Social Research, Institute for Social Research, P.O. Box 1248, University of Michigan, Ann Arbor, MI 48106-1248, or by fax: 734-647-8200.

- 2) ICPSR recoded blanks in numeric variables to -9 and labeled them Blank. However, due to the range of values in the DAYSTOASSESS “# DAYS FROM 1ST PROTOCOL TO ASSESSMENT” and DAYSASSESSTOPROG “# DAYS FROM 1ST ASSESSMENT TO PROGRAM ENROLLMENT” variables, ICPSR recoded blanks in those two numeric variables to -999.
- 3) ICPSR added value labels to values in the following variables based upon information provided from the principal investigators:

- 4) Secondary users of the data should be aware that two offense type variables were dropped from the dataset at the request of the principal investigators.
- 5) ICPSR masked the INMNUM "GA PRISON INMATE NUMBER" variable and created the CASEID "CASE IDENTIFIER CREATED BY ICPSR" variable, which is a unique identifier. The INMNUM "GA PRISON INMATE NUMBER" variable is not available to secondary users of the data, even under restricted access procedures.
- 6) The principal investigators assigned value labels to values in the GENDER "PAROLEE GENDER" and RACE "PAROLEE RACE" character variables. Users should be aware that the Stata files being distributed as part of this data collection do not contain value labels for these character variables due to a Stata limitation.

## **Data-Driven Supervision Protocols for Positive Parole Outcomes in Georgia, 2007-2008**

### **Variable Description and Frequencies**

**Note: Frequencies displayed for the variables are not weighted. They are purely descriptive and may not be representative of the study population. Please review any sampling or weighting information available with the study.**

**Summary statistics (minimum, maximum, mean, median, and standard deviation) may not be available for every variable in the codebook. Conversely, a listing of frequencies in table format may not be present for every variable in the codebook either. However, all variables in the dataset are present and display sufficient information about each variable. These decisions are made intentionally and are at the discretion of the archive producing this codebook.**
