Information about Copyrighted Content

Some instruments administered as part of this study may contain in whole or substantially in part contents from copyrighted instruments. Reproductions of the instruments are provided as documentation for the analysis of the data associated with this collection. Restrictions on "fair use" apply to all copyrighted content. More information about the reproduction of copyrighted works by educators and librarians is available from the United States Copyright Office.

NOTICE

WARNING CONCERNING COPYRIGHT RESTRICTIONS

The copyright law of the United States (Title 17, United States Code) governs the making of photocopies or other reproductions of copyrighted material. Under certain conditions specified in the law, libraries and archives are authorized to furnish a photocopy or other reproduction. One of these specified conditions is that the photocopy or reproduction is not to be "used for any purpose other than private study, scholarship, or research." If a user makes a request for, or later uses, a photocopy or reproduction for purposes in excess of "fair use," that user may be liable for copyright infringement.

ICPSR CODEBOOK NOTES
Criminal Justice Data

- 1) Access to one or more files in this study is restricted. Users interested in obtaining these data must complete and sign a Restricted Data Use Agreement, describe the research project and data protection plan, and obtain IRB approval or notice of exemption for their research.
- 2) ICPSR recoded blanks in numeric variables to -9 and labeled them "Blank".
- 3) ICPSR dropped the original ID "ID" variable and replaced it with CASEID "CASE IDENTIFIER CREATED BY ICPSR" which is a unique identifier. CASEID cannot be used to link datasets
- 4) ICPSR anonymized COUPONNUMBER and PROJECTID in Parts 1-8. The same anonymization scheme was applied to the COUPONNUMBER and PROJECTID variables in Datasets 1-8 so that they can be used to link Datasets 1-8. References to ID variables in character variables were also anonymized and are indicated by [].
- 5) ICPSR added variable labels based on information included in the Data Collection Instrument, and other documentation provided by the principal investigators. A list of variable labels added can be found in Appendix A of this codebook.
- 6) ICPSR repeated variable names as variable labels for PROJECTID, ETHNICITY, and ARRESTEDPOSNYC
- 7) ICPSR added value labels based on documentation provided by the principal investigators, as well as crosstabulations and frequencies for variables throughout the file. A list of value labels added can be found in Appendix B of this codebook.
- 8) ICPSR added a variable label for ARRESTEDDRUGNYC based on frequencies from the variable ARRESTEDDRUG.
- 9) Due to software limitations, ICPSR renamed FILTER_\$ to FILTER.
- 10) Due to Stata limitations, value labels for the character variables ETHNICITY and GENDER will not be displayed in the Stata files provided by ICPSR. Value labels for these variables can be found in the codebook for this data file, as well as in the SPSS and SAS files included in this collection.
- 11) To protect respondent confidentiality, ICPSR masked OWNWEAPONEXPLAIN.

12) To protect respondent confidentiality, ICPSR masked geographic information outside of New York City/New York State, and also masked neighborhoods, landmarks, street names and intersections in New York City in the following variables. Changed text is denoted by [].

Variable Description and Frequencies

Note: Frequencies displayed for the variables are not weighted. They are purely descriptive and may not be representative of the study population. Please review any sampling or weighting information available with the study.

Summary statistics (minimum, maximum, mean, median, and standard deviation) may not be available for every variable in the codebook. Conversely, a listing of frequencies in table format may not be present for every variable in the codebook either. However, all variables in the dataset are present and display sufficient information about each variable. These decisions are made intentionally and are at the discretion of the archive producing this codebook.

ICPSR has an FAQ on [copyright and survey instruments](#).
