Information about Copyrighted Content

Some instruments administered as part of this study may contain in whole or substantially in part contents from copyrighted instruments. Reproductions of the instruments are provided as documentation for the analysis of the data associated with this collection. Restrictions on "fair use" apply to all copyrighted content. More information about the reproduction of copyrighted works by educators and librarians is available from the United States Copyright Office.

NOTICE

WARNING CONCERNING COPYRIGHT RESTRICTIONS

The copyright law of the United States (Title 17, United States Code) governs the making of photocopies or other reproductions of copyrighted material. Under certain conditions specified in the law, libraries and archives are authorized to furnish a photocopy or other reproduction. One of these specified conditions is that the photocopy or reproduction is not to be "used for any purpose other than private study, scholarship, or research." If a user makes a request for, or later uses, a photocopy or reproduction for purposes in excess of "fair use," that user may be liable for copyright infringement.

ICPSR CODEBOOK NOTES
Baseline Data

- 1) A downloadable version of data for this study is available however, certain identifying information in the downloadable version may have been masked or edited to protect respondent privacy. Additional data not included in the downloadable version are available in a restricted version of this data collection. For more information about the differences between the downloadable data and the restricted data for this study, please refer to the codebook notes section of the PDF codebook. Users interested in obtaining restricted data must complete and sign a Restricted Data Use Agreement, describe the research project and data protection plan, and obtain IRB approval or notice of exemption for their research.
- 2) Users should be aware that in the Baseline Data (Dataset 1), the original data file provided to ICPSR included data on 813 inmates who were ineligible, not selected for the study, refused participation, or were removed from the study (as indicated by the ELIGIBLE “ELIGIBILITY STATUS” variable). At the request of the principal investigators, the Baseline Data available as part of this collection are a subset of the original data, consisting only of the 270 cases where the inmate initially consented to participate in the study. The full 1,083 case Baseline data are not available to secondary users of the data, even under restricted access procedures. For summary characteristics of the data that were removed by ICPSR, please refer to the Sampling section of the final report for this study (O’Keefe et al., 2010; NCJ 232973). ICPSR also dropped cases in Datasets 2-16 where a) the subject did not appear in the original Baseline Data, or b) the case corresponded to an inmate who was dropped from the Baseline Data by ICPSR because he/she was ineligible, not selected for the study, refused participation, or was removed from the study.
- 3) Users should be aware that in the Colorado State Penitentiary Pod Data (Dataset 3), the original data file provided to ICPSR included data on inmates who had initially consented to participate but later withdrew from the study, including some data collected after the subject withdrew. Because ICPSR was unable to ascertain exactly when the subjects had withdrawn from the study, Dataset 3 included in this collection includes only inmates who participated for the full duration of the study. The original pod data on subjects that withdrew from the study are not available to secondary users of the data, even under restricted access procedures. No data collected after the point of a participant’s withdrawal were used in the analyses in the final report for this study (O’Keefe et al., 2010; NCJ 232973). Data on subjects who withdrew after initially participating in the study are included in all of the other data files that are part of this collection. These data are available up to the point of the subject’s withdrawal or discontinuance from the study.

- 4) The datasets in this study include up to three ID variables: SUBJECTNUM “IDENTIFICATION NUMBER” (named SUBJNUM or SUBJECT in some datasets), CASENUM “CASE NUMBER FOR REPORTING PURPOSES ONLY”, and CASEID “CASE IDENTIFIER CREATED BY ICPSR”. SUBJECTNUM is a unique identifier given to each participant that consented. Values in the SUBJECTNUM (or SUBJNUM or SUBJECT) variable refer to the same person across all datasets and can be used to link the files (e.g.: Dataset 1 uses the variable name SUBJECTNUM and can be linked to Dataset 2 which uses the variable name SUBJECT). CASENUM is an ID generated by the principal investigators for reporting purposes only; for each file where a CASENUM is indicated, the CASENUM corresponds with a unique SUBJECTNUM for that file, but not across datasets. CASEID is a unique identifier created by ICPSR in datasets where no unique identifier existed. It cannot be used to link datasets.
- 5) ICPSR anonymized the “IDENTIFICATION NUMBER” variable (SUBJECTNUM, SUBJECT, SUBJNUM) in Datasets 1-16. The same anonymization scheme was applied to the “IDENTIFICATION NUMBER” variable in Datasets 1-16 so that it can be used to link all 16 datasets.
- 6) ICPSR recoded blanks in numeric variables to -9 and labeled them “Blank”.
- 7) Based on information provided by the principal investigators, ICPSR added the value label 4 “Unknown” to DEGREE, and set 4 as a valid value. ICPSR also changed the variable label SENT_LENGTH “SENTENCE LENGTH” to “SENTENCE LENGTH – YEARS”.
- 8) Based on information included in the final report (O’Keefe, Klebe, Stucker, Sturm, and Leggett, 2010; NCJRS 232973), ICPSR added the following variable labels
SUBJECTNUM “IDENTIFICATION NUMBER”
REFUSAL “REFUSED TO PARTICIPATE”
GANG “GANG MEMBERSHIP”.
- 9) Based on frequencies in the final report (O’Keefe, Klebe, Stucker, Sturm, and Leggett, 2010; NCJRS 232973), ICPSR edited the value label 5 “Comparison group general population offenders without mental illness” to 5 “Comparison group general population offenders with mental illness” for the variable GROUP.
- 10) Due to software limitations, ICPSR renamed SUBJECT# SUBJECTNUM.

- 11) To protect respondent confidentiality, ICPSR masked the following variables

INCRNO "CURRENT INCARCERATION #"
REFUSAL "REFUSED TO PARTICIPATE"
HRG_DTD "ADMINISTRATIVE SEGREGATION HEARING DATE"
PLACEMENT "DATE TRANSFERRED TO CSP, CCF, OR SCCF"
MRD "MANDATORY RELEASE (FROM PRISON) DATE"
AGE "AGE AT START OF PROJECT"
RACE "RACE"
DEGREE "DEGREE TYPE"
GANG_DESC "GANG DESCRIPTION"
MHQUAL "MENTAL HEALTH QUALIFIER"
COPD_ALL "TOTAL COPD CONVICTIONS"
SENT_LENGTH "SENTENCE LENGTH – YEARS"

Date variables were masked by recoding all valid dates to 1/1/1900. The original content of these variables is available to secondary users under restricted access procedures (see note 1 above).

- 12) To protect respondent confidentiality, ICPSR edited the variable ELIGIBLE "ELIGIBILITY STATUS" by recoding all "Discontinued" and "Withdrew" values into "Discontinued/Withdrew". ICPSR added the value label "Withdrew consent or was paroled or released after at least one test". The original content of the variable is available to secondary users under restricted access procedures (see note 1 above).
- 13) Due to Stata limitations, value labels for the character variables ELIGIBLE, INELIGIBLE, INSTUDY, and MHQUAL are missing in the Stata files being distributed as part of this collection. Value labels are contained in the ICPSR Codebook, as well as in the SAS and SPSS versions of this data collection.

ICPSR 31321

Evaluation of the Psychological Effects of Administrative Segregation in Colorado, 2007-2010

Variable Description and Frequencies

Note: Frequencies displayed for the variables are not weighted. They are purely descriptive and may not be representative of the study population. Please review any sampling or weighting information available with the study.

Summary statistics (minimum, maximum, mean, median, and standard deviation) may not be available for every variable in the codebook. Conversely, a listing of frequencies in table format may not be present for every variable in the codebook either. However, all variables in the dataset are present and display sufficient information about each variable. These decisions are made intentionally and are at the discretion of the archive producing this codebook.

ICPSR has an FAQ on [copyright and survey instruments](#).

Baseline Data

SUBJECTNUM: IDENTIFICATION NUMBER

Based upon 270 valid cases out of 270 total cases.

- Mean: 1135.50
- Minimum: 1001
- Maximum: 1270
- Standard Deviation: 78.09

Location: 1-4 (width: 4; decimal: 0)

Variable Type: numeric

(Range of) Missing Values: -9

INCRNO: CURRENT INCARCERATION

Value	Label	Unweighted Frequency	%
1	1st incarceration	0	0.0 %
2	2nd incarceration	0	0.0 %
3	3rd incarceration	0	0.0 %
4	4th incarceration	0	0.0 %
5	5th incarceration	0	0.0 %
6	6th incarceration	0	0.0 %
7	7th incarceration	0	0.0 %
97	Masked	270	100.0 %
	Total	270	100%

Based upon 270 valid cases out of 270 total cases.

- Minimum: 97
- Maximum: 97

Location: 5-6 (width: 2; decimal: 0)

Variable Type: numeric

GROUP: STUDY GROUP

Value	Label	Unweighted Frequency	%
1	Study group administrative segregation offenders with mental illness	64	23.7 %
2	Study group administrative segregation offenders without mental illness	63	23.3 %
3	Comparison group San Carlos offenders with severe mental illness	67	24.8 %
4	Comparison group general population offenders without mental illness	43	15.9 %
5	Comparison group general population offenders with mental illness	33	12.2 %
	Total	270	100%

Based upon 270 valid cases out of 270 total cases.

- Minimum: 1

- Maximum: 5

Location: 7-7 (width: 1; decimal: 0)

Variable Type: numeric

INSTUDY: STUDY PARTICIPANT

Value	Label	Unweighted Frequency	%
No	Not a study participant	0	0.0 %
Yes	Study participant/consented took at least 1 test	270	100.0 %
	Total	270	100%

Based upon 270 valid cases out of 270 total cases.

Location: 8-57 (width: 50; decimal: 0)

Variable Type: character

ELIGIBLE: ELIGIBILITY STATUS

Value	Label	Unweighted Frequency	%
Discontinued	Paroled or released prior to completion of final test	0	0.0 %
Discontinued/Withdrew	Withdrew consent or was paroled or released after at least one test	33	12.2 %
Included	Consented and completed all tests	237	87.8 %
Refused	Refused to participate/consent	0	0.0 %
Removed	Consented but removed due to inappropriate behavior or consented but later discovered not an eligible participant	0	0.0 %
Withdrew	Consented but later withdrew after at least one testing session	0	0.0 %
	Total	270	100%

Based upon 270 valid cases out of 270 total cases.

Location: 58-107 (width: 50; decimal: 0)

Variable Type: character

REFUSAL: REFUSED TO PARTICIPATE

Value	Label	Unweighted Frequency	%
0	Either consented or not approached	0	0.0 %
1	Offender approached & refused participation	0	0.0 %
97	Masked	270	100.0 %
	Total	270	100%

Based upon 270 valid cases out of 270 total cases.

- Minimum: 97
- Maximum: 97

Location: 108-109 (width: 2; decimal: 0)

Variable Type: numeric

INELIGIBLE: INELIGIBLE REASON (IF INELIGIBLE)

Based upon 270 valid cases out of 270 total cases.

Location: 110-139 (width: 30; decimal: 0)

Variable Type: character

HRG_DTD: ADMINISTRATIVE SEGREGATION HEARING DATE

Value	Label	Unweighted Frequency	%
	-	81	30.0 %
01-JAN-1900	-	189	70.0 %
	Total	270	100%

Based upon 270 valid cases out of 270 total cases.

Location: 140-150 (width: 11; decimal: 0)

Variable Type: character

PLACEMENT: DATE TRANSFERRED TO CSP, CCF, OR SCCF

Value	Label	Unweighted Frequency	%
	-	57	21.1 %
01-JAN-1900	-	213	78.9 %
	Total	270	100%

Based upon 270 valid cases out of 270 total cases.

Location: 151-161 (width: 11; decimal: 0)

Variable Type: character

MRD: MANDATORY RELEASE (FROM PRISON) DATE

Value	Label	Unweighted Frequency	%
01-JAN-1900	-	270	100.0 %
	Total	270	100%

Based upon 270 valid cases out of 270 total cases.

Location: 162-172 (width: 11; decimal: 0)

Variable Type: character

AGE: AGE AT START OF PROJECT

Value	Label	Unweighted Frequency	%
97	Masked	270	100.0 %
	Total	270	100%

Based upon 270 valid cases out of 270 total cases.

- Minimum: 97

- Maximum: 97

Location: 173-174 (width: 2; decimal: 0)

Variable Type: numeric

RACE: RACE

Value	Label	Unweighted Frequency	%
1	Caucasian	0	0.0 %
2	African American	0	0.0 %
3	Latino	0	0.0 %
4	Other	0	0.0 %
97	Masked	270	100.0 %
	Total	270	100%

Based upon 270 valid cases out of 270 total cases.

- Minimum: 97
- Maximum: 97

Location: 175-176 (width: 2; decimal: 0)

Variable Type: numeric

DEGREE: DEGREE TYPE

Value	Label	Unweighted Frequency	%
1	HSD	0	0.0 %
2	GED	0	0.0 %
3	Neither	0	0.0 %
4	Unknown	0	0.0 %
97	Masked	270	100.0 %
	Total	270	100%

Based upon 270 valid cases out of 270 total cases.

- Minimum: 97
- Maximum: 97

Location: 177-178 (width: 2; decimal: 0)

Variable Type: numeric
