NOTICE

WARNING CONCERNING COPYRIGHT RESTRICTIONS

The copyright law of the United States (Title 17, United States Code) governs the making of photocopies or other reproductions of copyrighted material. Under certain conditions specified in the law, libraries and archives are authorized to furnish a photocopy or other reproduction. One of these specified conditions is that the photocopy or reproduction is not to be "used for any purpose other than private study, scholarship, or research." If a user makes a request for, or later uses, a photocopy or reproduction for purposes in excess of "fair use," that user may be liable for copyright infringement.

HOW TO ANSWER: On the following pages are some sentences. They are about how people like you may behave. Some of the sentences may be true of how you behave and others may not be true for you. For each sentence we would like you to say if the sentence is usually true for you, is more true than false for you, is more false than true for you, or is usually false for you. There is no "right" or "wrong" answer because all people behave in different ways. All you have to do is answer what is true for YOU.

1 = Usually false

3 = More true than false

2 = More false than true

4 = Usually true
