Data Completeness Report

Notes: (1) Variables are individually listed only if they have greater than 5% missing data. These variables are listed under the appropriate percentage category in the order in which they appear in the data file. (2) The Data Completeness Report only captures information about system missing or other values that are declared missing. Codes that have a label implying that they are missing but that are not declared missing values are not reflected in this report. Data users should consult the codebook for more specific information about missing values. (3) Some variables that have 100% missing data may have been blanked by ICPSR to protect respondent confidentiality. Data users should consult the codebook for more specific information about blanked variables. (4) Data do not contain skip patterns or skip patterns are not reflected in the data as coded.

Table 1: Distribution of Variables by Percentage of Missing Values--Individual-Level Household Census Data - Public Use

Variable Name and Label (Total Cases = 9839)	Percent of Cases with Missing Values
90.0% (9 of 10 variables)	have 0% Missing Values
10.0% (1 of 10 variables)	have 0% - 1% Missing Values
0.0% (0 of 10 variables)	have 1% - 3% Missing Values
0.0% (0 of 10 variables)	have 3% - 5% Missing Values
0.0% (0 of 10 variables)	have 5% - 10% Missing Values
0.0% (0 of 10 variables)	have 10% - 20% Missing Values
0.0% (0 of 10 variables)	have 20% - 40% Missing Values
0.0% (0 of 10 variables)	have 40% - 99% Missing Values
0.0% (0 of 10 variables)	have 100% missing values

Household Information

1996

Namaste ! My name is (name) and I am with the Population and Ecology Research Laboratory in Rampur, Chitwan. I would like to ask you some questions regarding household members and their farming practices. Our research program aims to study the impact of the different social, economic, and environmental changes happening to families living in Chitwan. The information we collect will be used only for research purposes.

This interview is completely voluntary, but your cooperation is very important to make the study a success. If we come to a question that you don't want to answer, just let me know, and we will go on to the next question.

Respondent's Name: _____

Exact Time Now: _____

We would like to know who is currently living in this household. Please include people who have ate and slept in this house most of the time during the last six months. Please include any spouses of household members, even if those spouses are living away from home. Also, we want to know about people who live in this house because they work here. Can we first start by getting some information about you?
