REQUEST FOR INFORMATION ON USE OF ICPSR RESOURCES

To provide funding agencies with essential information about use of archival resources and to facilitate the exchange of information about ICPSR participants' research activities, users of ICPSR data are requested to send to ICPSR bibliographic citations for each completed manuscript or thesis abstract. Please indicate in a cover letter which data were used.

DATA DISCLAIMER

The original collector of the data, ICPSR, and the relevant funding agency bear no responsibility for uses of this collection or for interpretations or inferences based upon such uses.

This data collection is the result of an evaluation of the NEPHU program, conducted by the Police Foundation under the sponsorship of the National Institute of Justice (NIJ). In August 1989, the Bureau of Justice Assistance supported a grant in Denver, Colorado, to establish a special Narcotics Enforcement in Public Housing Unit (NEPHU) within the Denver Police Department. The goal of the Denver NEPHU was to reduce the availability of narcotics in and around the city's public housing areas by increasing drug arrests. NEPHU's six full-time officers made investigations and gathered intelligence leading to onstreet arrests and search warrants. The unit also operated a special telephone Drug Hotline and met regularly with tenant councils in the developments to improve community relations. The program worked in cooperation with the Denver Housing Authority and the uniformed patrol division of the Denver Police Department, which increased levels of uniformed patrols to maintain high visibility in the project areas to deter conventional crime. Using a panel design, survey interviews were conducted with residents in the Quigg Newton and Curtis Park public housing units, focusing on events that occurred during the past six months. Respondents were interviewed during three time periods to examine the onset and persistence of any apparent program effects. In December 1989, interviews were completed with residents in 521 households. In June 1990, 422 respondents were interviewed in Wave 2. Wave 3 was conducted in December 1990 and included 423 respondents. In all, 642 individuals were interviewed, 283 of whom were interviewed for all three waves. Because of the evaluation's design, the data can be analyzed to reveal individual-level changes for the 283 respondents who were interviewed on all three occasions, and the data can also be used to determine a cross-section representation of the residents by including the 359 "new" persons interviewed during the course of the Information collected includes years and months lived in evaluation. the development, assessments of changes in the neighborhood, whether the respondent planned to stay in the development, interactions among residents, awareness of anti-drug programs, ranking of problems in the development, concerns and reports of being a victim of various crimes, perceived safety of the development, assessment of and availability, assessment of police activity and use visibility, and personal contacts with police. The unit of analysis is the individual.

KEY WORDS

Drug use, fear of crime, police, property crimes, public housing, violent crimes

PURPOSE OF THE STUDY

This data collection is the result of an evaluation of the NEPHU program, conducted by the Police Foundation under the sponsorship of the National Institute of Justice (NIJ). In August 1989, the Bureau of Justice Assistance supported a grant in Denver, Colorado, to establish a special Narcotics Enforcement in Public Housing Unit (NEPHU) within Denver Police Department. The NEPHU program was primarily enforcement-oriented and employed traditional policing methods, but the unit focused new energy and resources on tackling drug problems in Denver's public housing units. The NEPHU's six full-time officers sergeant, four lieutenant, one and detectives) investigations and gathered intelligence leading to on-street arrests and search warrants. The unit also operated a special telephone Drug Hotline and met regularly with tenant councils in the developments to improve community relations. The program worked in cooperation with the Denver Housing Authority and the uniformed patrol division of the Denver Police Department, which increased levels of uniformed patrols to maintain high visibility in these areas, to deter conventional crime. The goal of the Denver NEPHU was to reduce the availability of narcotics in and around the city's public housing areas by increasing drug arrests. It was hoped that this would, in turn, lower the incidence of both violent crimes and property crimes, residents' fear of crime, and increase residents' confidence in the police.

Page 4 ICPSR 6482

METHODS

STUDY DESIGN

With the assistance of the Denver Housing Authority, two matched housing developments were selected in which to monitor the progress of the NEPHU program. The Curtis Park Homes development is located in northeast Denver. The population of this area of Denver is predominantly American-born, of Mexican ancestry, although the residents of the Curtis Park Homes are overwhelmingly African-American. The Quigg Newton Homes development is located in north Denver and has been predominantly Hispanic since the 1950s. Using a panel design, survey interviews were conducted with residents in these housing units, focusing on events that occurred during the past six months. Respondents were interviewed during three time periods to examine of the onset and persistence of any apparent program effects. In December 1989, attempts were made to contact all households in the two target developments. In June 1990, second-wave interviewers revisited units where Wave 1 interviews had been successfully completed and reinterviewed the original Wave 1 respondents if they still lived in the units. New respondents were solicited if the Wave 1 respondents had moved from the households. The third wave of the survey was conducted in December 1990. Interviewers again revisited all the units in which interviews had been completed in Wave 1, selecting replacement respondents if those interviewed in the past had left the households. In all, 642 individuals were interviewed, 283 of whom were interviewed for all three waves. A total of 1,366 interviews were conducted. Because of the evaluation's design, the data can be analyzed in two different ways. First, responses by the respondents who were interviewed on all three occasions can be tracked to reveal individual-level changes in experiences and opinions during Second, because of people moving in and out of the projects 1990. during the course of the year, 359 "new" persons living in the target developments were interviewed during the course of the evaluation. By including them, each wave of interviews also produced representative cross-sections of the residents of Curtis Park and Quigg Newton at each point in time.

SOURCES OF INFORMATION

Data were collected through interviews with residents of the targeted housing developments.

SAMPLE

Two matched housing developments in Denver were chosen. Out of 751 households in the two housing developments, interviews were completed with residents in 521 households in Wave 1. Of these, 422 households were reinterviewed in Wave 2, and 423 were reinterviewed in Wave 3.

RESPONSE RATES

Not applicable.

DATE(S) OF DATA COLLECTION

1989-1990

SUMMARY OF CONTENTS

DESCRIPTION OF VARIABLES

Information collected includes years and months lived in the development, assessments of changes in the neighborhood, whether the respondent planned to stay in the development, interactions among residents, awareness of anti-drug programs, ranking of various problems in the development, concerns and reports of being a victim of various crimes, perceived safety of the development, assessment of drug use and availability, assessment of police activity and visibility, and personal contacts with police.

PRESENCE OF COMMON SCALES

Several Likert-like scales were used.

UNIT OF OBSERVATION

Individuals

EXTENT OF PROCESSING

Data and documentation were reformatted by ICPSR. Consistency checks, checks for undocumented codes, and recodes were performed by ICPSR. ICPSR produced a codebook and SAS and SPSS data definition statements for this collection. Missing data codes were standardized by the data producer and by ICPSR.

Page 6 ICPSR 6482

EXTENT OF COLLECTION

This data collection contains one data file, a machine-readable codebook, SAS and SPSS data definition statements, and data collection instruments.

DATA COLLECTION NOTES

Additional data discussed in the Final Report are not part of this release. Specifically, data collected from official records in Denver are not available as part of this collection, nor are data resulting from an evaluation of a NEPHU program in New Orleans.

RECORD LENGTH: 75

DISKETTE USER INFORMATION

The file sizes for the diskette version of this study are listed below. If all of the files below are loaded onto a hard drive and uncompressed, approximately 1,440,000 bytes of disk space will be required.

Data File

DA6436.P1 672,816 bytes compressed into 74,104 bytes.

De-compressing Files

A file with the .EXE extension is a PKWARE Self-Extracting Compressed file. When this file is uncompressed it will require .7 megabytes of disk space. The compressed data file was named using the convention D6482P1.EXE. When uncompressed the file will be named DA6482.P1.

Example of decompressing a compressed file into an ASCII file (using file D6482P1.EXE):

- (1) attach to the drive/path where you wish to locate the uncompressed file, e.g., hard disk or C:\ drive
- (2) place the diskette containing file D6482P1.EXE into disk drive A
- (3) then type: A:\D6482P1 and press ENTER. This will access the self-executing file called D6482P1.EXE. An uncompressed file called, DA6482.P1, will be produced and reside on your C: drive.

Documentation

The Codebook and User Guide file requires approximately 463,000 bytes of disk space. The SAS and SPSS data definition statements require approximately 304,000 bytes of disk space.

Q95B ATTEMPTED MUGGING HAPPENED IN DEVELOPMN	79.0%	79.4%
Q99A REPORT SEXUAL ATTACK	78.2%	79.6%
Q99B SEXUAL ATTACK HAPPENED IN DEVELOPMENT	78.2%	79.6%
Q118 INCOME UNDER/OVER \$5,000	76.6%	80.1%

^{*}Variables individually listed only if greater than 5% missing values.

Data contain "not applicable" codes for skip patterns and for cases where a respondent was not interviewed for one or more of the waves. The "MD-Skip" column in the Data Completeness Report provides the percent missing values for skip patterns only. Not reflected above, for Wave 1, 121 of the 642 cases represent "not applicable" cases for non-Wave 1 respondents (18.8%); for Wave 2, 220 cases represent "not applicable" cases for non-Wave 2 respondents (34.3%); and for Wave 3, 219 cases represent "not applicable" cases for non-Wave 3 respondents (34.1%).

Neither code for the "not applicable" cases are declared missing in the SAS or SPSS data definition statements.

** CODEBOOK NOTES **

DENVER RESIDENT SURVEY DATA FILE DOCUMENTATION

The Denver resident survey involved three waves of interviews with residents of two public housing projects. A detailed technical report on the survey accompanies the final grant report to NIJ.

Survey questionnaires appended to the codebook should be used for the full question text. Each variable is named using its question number on the survey instrument. These numbers are consistent from wave to wave. Wave 1 variable names begin with a "Q". Wave 2 variable names begin with a "T". Wave 3 variable names begin with a "Z". The names of new variables added at Wave 2 (which were retained in Wave 3) are further prefixed by "N"

Each respondent is identified by the unique identification variable W123ID.

The PROJECT variable identifies the two Denver housing projects, Curtis Park (code 1) and Quigg Newton (code 2).

Because not all individuals were interviewed at all three waves, noninterview variables are identified by the code, -2. The panel status of each respondent is indicated in the variable STATUS.

The following table summarizes the total number of interviews in each project, and their panel status.

	number	of cases		
	Curtis	Quigg-	Total	
	Park	Newton	Responde	nts
STATUS				%
Waves 1-2-3	146	137	283	44
Wave 1-2 only	42	67	109	17
Wave 1-3 only	17	13	30	5
Wave 2-3 only	5	14	19	3
Wave 1 only	47	52	99	15
Wave 2 only	3	8	11	2
Wave 3 only	41	50	91	14
	301	341	642	100

Because this was a panel study each variable was repeated three times for the 642 respondents. As the total number of variables for each respondent thus exceeded the 500-variable limit imposed by SPSS/PC, analysts using SPSS/PC will need to select variable subsets to remain under the 500-variable limit.

Q56 WAVE 1

DENVER PUBLIC HOUSING SURVEY WHAT THE RESIDENTS CAN DO ABOUT THE DRUG PROBLEM

Category Code Number	What	the Residents Can Do
01	NEIG	HBORHOOD WATCH
	010	report suspicious activities to police and DHA managers; neighbors need to get mad; work together
	011	call police drug hotline; encourage kids to call hotline to report dealers
	012	call 911
	013	enforce curfew (report child's activities to parents); parents need to take more control of their children
	014	get more lighting around front and back porches and buildings
	015	patrol buildings to run dealers away (act as security guards)
	016	drug education programs; work with young kids before they get involved with drugs; work with parents who deny their kids are involved; involve kids in drug prevention programs
	017	attend meetings; provide transportation for seniors; create a greater sense of community
	018	get managers to work with residents instead of identifying residents who speak out
	019	encourage kids to stay in school, to strive for more out of life
02	EVIC	TIONS
	020	tenant screening needed; check for criminal records; mandatory urine testing for applicants and retest for ADC mothers
	021	enforce lease agreements (evict leaseholders who sell/buy drugs or who

allow others to use their unit for

illegal purposes)

Page 122 ICPSR 6482

03	WORK WITH POLICE
	030 reinstate the drug task force 031 increase police presence; patrol grounds more
	032 police should protect residents who speak out (a witness protection program)
	033 job assistance program for juveniles 034 hold a fundraiser to build a recreation center for kids
04	TREATMENT PROGRAMS
	040 drug treatment programs for adults and juveniles (adults need to set an example for kids; to many children see them take drugs)
05	DRASTIC MEASURES
	050 bearing arms to take back the streets 051 kill all drug dealers
	052 legalize drugs (tax everyone; people in high places are getting rich from drugs)
	053 hang drug dealers/sellers 054 management should conduct mandatory
	check of all units 055 send kids to a "scared straight" program
	in the prisons 056 go down to HAND, clean up NEW DAY, INC. (big part of drug problem)
	057 reinstate corporal punishment in schools
06	DON'T GET INVOLVED
	060 fearful of retaliation; residents stay to themselves
	061 senior residents are too old and scared and should not be confronting these kids
07	REPORT POLICE
	070 police harassment 071 drug use by police; some officers need to get off drugs themselves
08	MISCELLANEOUS
	080 don't know about drugs; haven't lived here long enough; drugs don't bother me; people don't bother me
	081 turn to Jesus; take kids to church; pray 082 not much residents can do
	004 HUL MUCH LESIGENUS CAN GO

- 083 no opinion
- 084 help residents to become self-sufficient
- 085 better sex-education programs
- 086 call HUD

057

WHAT THE POLICE CAN DO

01 MORE POLICE

- 010 increase number of police assigned to public housing (vice; squad; and Black and Mexican officers)
- 011 increase patrol during evening and on
 weekends; after school; around
 playgrounds; during summer, etc.
- 012 require police to "just do their jobs"
- 013 think the police are doing a pretty good job

02 POLICE TACTICS

- 020 deployment of officers (foot patrol); assign an officer or a security guard to the development
- 021 target dealers; sellers and open air drug markets; make more arrests; take away drivers licenses; and welfare and other social services
- 022 target juveniles; enforce curfews; hold parents accountable; make more arrests for loitering
- 023 target gangs; stop gambling in the courtyards; protect residents from gang retaliation
- 024 establish a reward system for reporting crimes, such as crime stoppers program
- 025 assign informants to vacant units
- 026 enforce speed limits around development
- 028 stop allowing public streets to be used as bathrooms
- 029 improve response time
- 030 enforce evictions (lease violations and evicting known dealers)

03 POLICE AS PART OF THE PROBLEM

031 police should stop harassment of residents; intimidation; and sometimes brutality

Page 124 ICPSR 6482

032 police corruption (police are taking bribes from dealers; selling drugs back to users; generally too friendly with dealers; there should be accountability for money confiscated from dealers

04 POLICE/COMMUNITY RELATIONS

- 040 need more conscientious police; there needs to be an attitude adjustment for some officers (many show no concern for residents) not all residents are bad and not all juveniles are involved in drugs; police need to encourage dialogue with juveniles
- 041 more interaction with community; develop programs which foster a positive relationship between young kids; establish an "officer friendly" school program
- 042 encourage neighborhood watch; attend community meetings; send out flyers regarding meetings
- 043 work with housing managers; assist with tenant screening; recommend that residents wear identification
- 044 work with residents to get security gates

05 JUDICIAL/COURT SYSTEM

- 050 stop the revolving door for drug dealers (don't let them out in one day)
- 051 build more jails
- 052 institute rehabilitation programs; first offenders should be required to do community service and clean and maintain prison cells

06 MISCELLANEOUS

- 060 maintain residents identity when they report dealers
- 061 don't know
- 062 not much can be done

** APPENDIX B **

QN1. WHAT, IF ANYTHING, HAVE YOU OR SOMEONE ELSE IN THIS HOUSEHOLD DONE ABOUT THE DRUG PROBLEM BECAUSE OF THE INFORMATION IN THE BROCHURES OR FLYERS YOU RECEIVED?

CODES FOR TN1A AND TN1B

Category Code Number	What.	has been done								
01	NOTH	ING HAS BEEN DONE								
	010 011	read material; nothing else; watch & see have not reported anythingafraid drug dealers will retaliate; everyone knows you by name and might tell								
	012									
02	EDUC	ATE CHILDREN								
	020	talk to the kids; keep kids away from drugs; teach kids to say no								
	021	keep kids in summer programs; keep them busy with recreational activities								
	022	go to schools to talk to kids; search for drugs								
03	ATTEND MEETINGS									
	030 031	go to meetings active in resident council meetings								
04	DON''	I GET INVOLVED								
	040	stay to myself; never bothered by anything								
	041	when approached about drugs, I say that I don't know how to get them								
	042	don't want to falsely accuse anyone								
05	CALL	DRUG HOTLINE								
		report hard drugs being sold								
	051 052	have turned people in have close relationship with police (have officers phone numbers) and will call them directly to report suspicious activities								
	053	call 911 police emergency								

Page 126 ICPSR 6482

06	CONTACT DENVER HOUSING AUTHORITY MANAGER
	060 call in, talk to Paul (manager)
07	NEIGHBORHOOD WATCH
	070 watch our homes 071 talk to our neighbors 072 convince neighbors to call police 073 manager and friend sat out front to keep dealers away
08	BROCHURES
	080 very little information provided 081 only received one brochure and it was in Spanishcould not read it
09	MISCELLANEOUS
	090 more lighting need around development

DENVER PD NARCOTICS ENFORCEMENT

IN PUBLIC HOUSING PROJECT

CITIZENS' ATTITUDE AND VICTIMIZATION SURVEY

ENGLISH WAVE 1 VERSION

Hello, my name is		and I work for a national
research organization	in Washington, DC	[SHOW I.D. CARD]
May I speak with		[NAME OF LEASE HOLDER]

We recently mailed a letter to you about a survey we are doing to find out the problems people are having in this area and what they think can be done to improve the quality of life around here. The information you give us will help develop programs to address these problems. Everything you tell us will be kept strictly confidential and it will be used only to prepare a report in which no one's answers will ever be identified. Your participation is voluntary but your cooperation will be very helpful.

Page	130	ICPSR	6482

	Т	ime Began	a.m. (15 p.m.	5-18)
Q1.	First, I have a few questions about long have you lived in this developm		development.	How
	YEARS MONTHS DON'T KNOW		(19-20) (21-22)	
Q2.	In general, in the past six months w become a better place to live, gotte			
	BETTER 3 WORSE 1 ABOUT THE SAME 2 DON'T KNOW 8		(23)	
Q3.	All things considered, what do you to a year from now? Will it be a bette worse, or stayed about the same?			
	BETTER 3 WORSE 1 ABOUT THE SAME 2 DON'T KNOW 8		(24)	
Q4.	Do you really feel like this is a ne more as just a place to live?	ighborhood,	or do you thin	k of it
	FEEL LIKE A NEIGHBORHOOD 1 JUST A PLACE TO LIVE 0 DON'T KNOW 8		(25)	
Q5.	In some areas people do things toget areas people mostly go their own way development would you say this is? each other or one where people go the	. In generals it mostly	al, what kind of one where peop	£
	HELP EACH OTHER		(26)	
Q6.	Do people in this development go to the area, or do they just stay to the		talk about prob	olems in
	HAVE MEETINGS		(27)

Just like last time, all the information you give me will be strictly confidential and it will be used only to prepare a report in which no one's answers will ever be identified. Your participation is voluntary but your cooperation is valuable.

INTRODUCTION FOR NEW RESPONDENT

Hello, my name is	 	and I	work for	a national
research organization in	Washington, DC	[SHOW I.D.	CARD]	

We recently sent a flyer to this household about a survey we are doing in this housing development. As the flyer said, the Denver Housing Authority (DHA) has given its approval for the survey. The information you give us will help develop programs to address the crime problems here. Everything you tell us will be kept strictly confidential and it will be used only to prepare a report in which no one's answers will ever be identified. Your participation is voluntary but your cooperation will be very helpful.
