ASSERTIVE INTERACTIONS

The following statements deal with how you spend your time in prison and how you feel about the best way to get along here. Indicate whether you strongly disagree, disagree, are neutral, agree, or strongly agree with each one.

1. It would be pretty hard for anyone to ever make me mad enough to fight him.
2. You can't let someone push you around because if you do you'll get pushed around from then on.
3. If you ever do have to fight, you're smart to do a good enough job on the other guy that he'll never come back for more.
4. One inmate should never inform on another inmate to the staff.
5. I try to stay out of trouble but nobody is going to push me around and get away with it.
6. The other men are right when they say "don't do anything more than you have to."
7. When inmates stick together it's easier to do time.
8. You can't really expect people to think much of you if you're willing to back away from trouble.
9. It's better to tell the staff what they want to hear than to tell them the truth if you want to get out soon.
