ICPSR PROCESSING NOTE FOR # 09836-0001
Chinese Household Income Project, 1988

1) **Value Labels:** In the original documentation the variables **STUDENT, INCOME88, PARTY, MINORITY, SJ, RETIRE, INK88,** and **WAGE** value labels are classified as 1 for "Yes" and 2 for "No". ICPSR processing found the actual values are 1 for "Yes" and 0 for "no".

2) Due to limitations with Stata variables **AMI88** and **MPEN** missing values are not coded and labeled.

Variable Description and Frequencies

Note: Frequencies displayed for the variables are not weighted. They are purely descriptive and may not be representative of the study population. Please review any sampling or weighting information available with the study.

Summary statistics (minimum, maximum, mean, median, and standard deviation) may not be available for every variable in the codebook. Conversely, a listing of frequencies in table format may not be present for every variable in the codebook either. However, all variables in the dataset are present and display sufficient information about each variable. These decisions are made intentionally and are at the discretion of the archive producing this codebook.
