Information about Copyrighted Content

Some instruments administered as part of this study may contain in whole or substantially in part contents from copyrighted instruments. Reproductions of the instruments are provided as documentation for the analysis of the data associated with this collection. Restrictions on "fair use" apply to all copyrighted content. More information about the reproduction of copyrighted works by educators and librarians is available from the United States Copyright Office.

NOTICE
WARNING CONCERNING COPYRIGHT RESTRICTIONS

The copyright law of the United States (Title 17, United States Code) governs the making of photocopies or other reproductions of copyrighted material. Under certain conditions specified in the law, libraries and archives are authorized to furnish a photocopy or other reproduction. One of these specified conditions is that the photocopy or reproduction is not to be "used for any purpose other than private study, scholarship, or research." If a user makes a request for, or later uses, a photocopy or reproduction for purposes in excess of "fair use," that user may be liable for copyright infringement.
Variable Description and Frequencies

Note: Frequencies displayed for the variables are not weighted. They are purely descriptive and may not be representative of the study population. Please review any sampling or weighting information available with the study.

Summary statistics (minimum, maximum, mean, median, and standard deviation) may not be available for every variable in the codebook. Conversely, a listing of frequencies in table format may not be present for every variable in the codebook either. However, all variables in the dataset are present and display sufficient information about each variable. These decisions are made intentionally and are at the discretion of the archive producing this codebook.

The next questions are about childhood emotional problems. Some young kids get very upset when they are separated from their mother or the person who they are most attached to emotionally. Examples include getting very upset when they are away from these people, worrying a lot that something bad will happen to separate these people from them, or wanting to stay home from school or not go other places without them. Did you ever feel this way for a month or longer when you were more than five years old?

Attacks of this sort can occur in three different situations. The first is when the attacks occur unexpectedly ‘out of the blue.’ The second is when a person has an unreasonably strong fear. For example, some people have a terrible fear of bugs or of heights or of being in a crowd. The third is when a person is in real danger, like a car accident or a bank robbery. The next question is about how many of your attacks occurred in each of these three kinds of situations. Did you ever have an attack that occurred unexpectedly or ‘out of the blue?’

SN37: Next I will read four statements about general relationship styles that people often report. On a 0-to-10 scale, where 0 means 'not at all like me' and 10 means 'exactly like me', please give me the number that best describes how much each statement sounds like you. First, 'It is easy for me to become emotionally close to others. I am comfortable depending on them and having them depend on me. I don't worry about being alone or having others not accept me.' What number between 0 and 10 best describes how much that statement sounds like you.

Based upon 4,978 valid cases out of 5,001 total cases.

SN38: Here is the next statement. 'I am uncomfortable getting close to others. I want emotionally close relationships, but I find it difficult to trust others completely, or to depend on them. I worry that I will be hurt if I allow myself to become too close to others.' What number between 0 and 10 best describes how much that statement sounds like you.

Based upon 4,978 valid cases out of 5,001 total cases.

SN39: Here is the third statement. 'I want to be completely emotionally intimate with others, but I often find that others are reluctant to get close as I would like. I am uncomfortable being without close relationships, but I sometimes worry that others don't value me as much as I value them.' What number between 0 and 10 best describes how much that statement sounds like you.

Based upon 4,978 valid cases out of 5,001 total cases.

SN40: Here is the last statement. 'I am comfortable without close emotional relationships. It is very important to me to feel independent and self-sufficient, and I prefer not to depend on others or have others depend on me.'
