About Research Connections

These data are made available by the Child Care and Early Education Research Connections (CCEERC), which promotes high quality research in child care and early education and the use of that research in policymaking. Our vision is that children are well cared for and have rich learning experiences, and their families are supported and able to work.

Research Connections is a partnership among the National Center for Children in Poverty at the Mailman School of Public Health, Columbia University; the Inter-university Consortium for Political and Social Research at the Institute for Social Research, University of Michigan; and the Child Care Bureau, at the Administration for Children and Families, U.S. Department of Health and Human Services.
