Information about Copyrighted Content

Some instruments administered as part of this study may contain in whole or substantially in part contents from copyrighted instruments. Reproductions of the instruments are provided as documentation for the analysis of the data associated with this collection. Restrictions on "fair use" apply to all copyrighted content. More information about the reproduction of copyrighted works by educators and librarians is available from the United States Copyright Office.

NOTICE
WARNING CONCERNING COPYRIGHT RESTRICTIONS

The copyright law of the United States (Title 17, United States Code) governs the making of photocopies or other reproductions of copyrighted material. Under certain conditions specified in the law, libraries and archives are authorized to furnish a photocopy or other reproduction. One of these specified conditions is that the photocopy or reproduction is not to be "used for any purpose other than private study, scholarship, or research." If a user makes a request for, or later uses, a photocopy or reproduction for purposes in excess of "fair use," that user may be liable for copyright infringement.
ICPSR PROCESSING NOTES FOR # 26721
Iowa Youth and Families Project, 1989-1992
Wave C 1991: Parent Survey Data

1) **Variable and value labels**: Variable labels and value labels were added for all variables based on the data collection instrument.

2) **Confidentiality**: To protect respondent confidentiality, responses in variables CF201006, CM201006, CF201017, CM201017, CF206004, CM206004, CF206049, CM206049, CF206075, and CM206075 were replaced with blank codes in the public use version of the data file.

3) **Unknown variables**: No information was found in the documentation for the variables CM301018 and CM301019.

4) **Unknown values**: Value labels for unknown codes were added in variables CF208038, CF208044, CM208044, CF208065, CM208065, CF305047, CF305048, CF305049, CM305023, CM305047, CM305048, CM305049, CS305023, CF106050, CF301009, CS105037, CF303089, CM303089, CF201006, CM201006, CF201017, CM201017, CF102080, CM102080, CF102081, CM102081, CF102084, CF102089 to CF102096, CM102084, CM102086 to CM102091, CM102094, and CM102096.

5) **Standardization of missing values**: Decimal values were removed from missing values in variables CF206061, CM206061, CF206019, and CM206019 in order to be compatible with current statistical software packages.

6) **Linking datasets**: The CASEID variable can be used to link files within waves and across years.
### Data Completeness Report

Notes: (1) Variables are individually listed only if they have greater than 5% missing data. These variables are listed under the appropriate percentage category in the order in which they appear in the data file. (2) The Data Completeness Report only captures information about system missing or other values that are declared missing. Codes that have a label implying that they are missing but that are not declared missing values are not reflected in this report. Data users should consult the codebook for more specific information about missing values. (3) Some variables that have 100% missing data may have been blanked by ICPSR to protect respondent confidentiality. Data users should consult the codebook for more specific information about blanked variables. (4) Data do not contain skip patterns or skip patterns are not reflected in the data as coded.

Iowa Youth and Families Project, 1989-1992
Variable Description and Frequencies

Note: Frequencies displayed for the variables are not weighted. They are purely descriptive and may not be representative of the study population. Please review any sampling or weighting information available with the study.

Summary statistics (minimum, maximum, mean, median, and standard deviation) may not be available for every variable in the codebook. Conversely, a listing of frequencies in table format may not be present for every variable in the codebook either. However, all variables in the dataset are present and display sufficient information about each variable. These decisions are made intentionally and are at the discretion of the archive producing this codebook.
